Through-the-wall letterbox system BASIC 623 powder-coated - Doorbell intercom - 6 parties | ? Colour of your choice | with 6 mailboxes (1x6)

Product number 623-RAL-6

Product description

Through-the-wall letterbox system BASIC 623 powder-coated - bell/intercom station - 6 parties

The through-the-wall letterbox with bell intercom, optionally with video loudspeaker, has plenty of space for receiving post and is variable in depth from 290 - 440 mm to suit the thickness of your wall (30 degree angle running diagonally to the rear). Each individual letterbox has a size of 300 x 110 x 290 to 440 mm (WxHxD). The boxes comply with the current EN 13724 standard so that A4 envelopes, for example, can be inserted without being bent and protection against break-ins is guaranteed.

The great advantage of a wall-mounted letterbox system is that it is well protected from the weather and therefore very durable. Also well suited for installation in wall pillars. A quality product made in Germany.

- Through-the-wall letterbox system made of galvanised sheet steel, powder-coated.
- German quality production "Made in Germany".
- Inclined, pull-out box and front panel without end frame (for an even look without interruptions).
- Variable depth from 290mm - 440mm, 30 degree angle running diagonally to the rear.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 26.5 cm) for C4 high, large letters also fit in here without creasing.
- Insertion flaps with sound-absorbing rubber seal for very quiet insertion of mail.
- The removal door can be opened from left to right.
- Incl. 2 keys with key number & interchangeable name plate under the flap.
- The labelling on the name plates can be changed as required
- Letterbox system with perforated intercom screen and anti-vandalism bell push-button for each letterbox.
- With universal adapter on the back for installing standard built-in loudspeakers.
- Universal adapter for all commercially available built-in loudspeakers.
- Installation instructions included.
