Freestanding BASIC mailbox system with 2 mailboxes, LED lighting and 2 parcel boxes – choice of RAL colour

Product number BML3D-11GP8XBGR1

Product description

Mailbox system with parcel reception and LED lighting – thoughtful design for your entrance

The BASIC Horizontal system from Briefkasten Manufaktur welcomes you and your visitors with a clean, uncluttered design. Its modular construction brings your chosen functions together in a well-organised solution that can be tailored to your everyday needs. The BASIC series offers versatile combinations of mailboxes, accessory boxes and function boxes for a coordinated entrance area. The system is designed for pedestal mounting and provides 2 mailboxes for daily post. It also incorporates 2 parcel boxes for parcel deliveries.

The system is finished in your choice of RAL colour and has overall dimensions of W 754 × H 1032 × D 430 mm.

Select “Configure now” to open this exact configuration in the 3D configurator. You can then customise the system further and place your order.

Individually configurable

Design your mailbox system to suit your home: select “Configure now” to tailor this configuration to your requirements.

- Support posts in the right length: choose from the post lengths available for your installation. The length shown can be changed.
- Box finish: customise the colour in the 3D configurator using the colours available for this version.
- Personalised lettering: add your own names, house numbers or custom text to the designated areas. Any lettering shown is an example and can be replaced.
- Lettering style: choose from the fonts available for lettering and adjust the appearance in the configurator.
- Backlit lettering can be configured on the designated areas of this system.
- Equipment: add or change compatible components from the selection currently available for the system.

When you make individual changes, the dimensions and price are recalculated in the 3D configurator to reflect your selection.

Robust cladding and thoughtful weather protection

The rain canopy made from V2A 1.4301 stainless steel complements the built-in weather protection: it shields the top and helps keep rain away from the front.

The side cladding made from V2A 1.4301 stainless steel protects the sides and gives the system a robust, visually seamless finish.

Additional space for parcels, newspapers and more

As a parcel box, this compartment complements mail reception by accepting parcels even when you are not at home. The selected BASIC series parcel lock with T-handle allows deliveries without handing a key to the courier. Use your key to release the compartment for a single delivery. The courier opens the released compartment, places the parcel inside, closes the door and pushes the lock in to secure it. To collect your parcel, open the compartment with your key, then release it again for the next delivery. Until then, it is not available for further keyless deliveries. The external box dimensions are 370 × 550 × 385 mm (W × H × D). The clear door opening and usable internal dimensions determine which parcel sizes will fit; the external dimensions do not indicate the maximum parcel size. Please check the parcel size against the compartment’s internal dimensions in advance.

Materials and workmanship

Base material: V2A 1.4301 stainless steel. V2A stainless steel provides a corrosion-resistant, durable foundation for your entrance area.

The powder-coated surface is finished in your choice of RAL colour. Select your preferred colour in the 3D configurator.

Mailbox and ease of use

Mailbox 370 × 330 × 385 mm: includes a rain drainage edge for optimum protection against water, a continuous rubber lip for quiet mail delivery, a sturdy nameplate with a replaceable insert and a highly robust lock. The height of the letter slot and the narrowing of the chute nevertheless protect your post against unauthorised removal.

Equipment

BASIC Type 2 plastic nameplate: nameplate made from crystal-clear polycarbonate. The insert can be replaced from the front.

Features of this mailbox system

- Product range: BASIC Horizontal
- Mounting: pedestal
- Finish: choice of RAL colour
- Overall dimensions: W 754 × H 1032 × D 430 mm
- 2 mailboxes, 1 function box, 2 accessory boxes
- Box finish: choice of RAL colour
- Fixing method: bolt-down posts
- Base material: V2A 1.4301 stainless steel. Finish: powder coating or brushed stainless steel

Important information:

Protection against water: a sheltered location, ideally under a canopy, helps protect your post. Mail should be inserted fully and the letter flap should be closed.

Installation: the selected system requires a suitable load-bearing base. Please follow the installation instructions and take the configured fixing method into account.
