## Product description

## Mailbox BRENTANO® with newspaper compartment - Design Elegance 3 - RAL colour of your choice

The BRENTANO® mailbox with invisible lock and narrow stainless steel trim including grey name inscription combines modern design with first-class functionality. Made from high-quality materials and powder-coated, it convinces not only as an elegant design feature for your home but also through its durability. The clear lines and meticulous workmanship make the BRENTANO® mailbox the ideal choice for the highest design standards. Thanks to its robust construction, it is particularly weather-resistant and ensures reliable protection for your mail. Perfect for anyone who values design and function in harmonious balance.

The generous dimensions of the BRENTANO® design mailbox provide a capacity of approx. 20 litres, so larger items such as C4 envelopes or magazines can be received without creasing – even after several days away. The top insertion ensures comfortable handling. In addition, the mailbox is equipped with dampers that ensure the insertion flap closes gently and quietly. The innovative Push-Key lock, invisibly concealed inside, allows opening without turning the key – simply insert the key into the opening and the door opens effortlessly. The clever arrangement of the lock and the collection door prevents your post from falling out towards you when opened. Manufactured from stainless steel as well as galvanised steel and additionally powder-coated, this mailbox is particularly durable and of high-quality workmanship.

The unique one-handed operation concept with the Push-Key lock, available exclusively from Briefkasten Manufaktur Lippe, allows particularly easy handling: with just one hand you can open the mailbox, remove the post and close it again. Protected by a utility model (DPMA file reference DE: 20 2021 101 679.5), this innovation provides genuine added value.

Thanks to the design, self-installation is straightforward.

**Important information:**

For optimal protection of your post from water, the mailbox or mailbox system should, if possible, be located under an overhang.

Mail items are only protected from water if they are placed completely inside the box and the insertion flap is closed. Partially inserted mail permits the ingress of moisture and dirt into the mailbox. This unit is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a valid basis for a complaint.
