Design letterbox pedestal GRIMM - rear removal - polished stainless steel with preparation for camera and intercom system | Individualised preparation | Rear mail retrieval | Stainless steel, brushed

Product number 562-STL-PE-H-SPO-1-VA-IND

Product description

Design Mailbox Column GRIMM – A Masterpiece of Mailbox Manufacturing

The GRIMM mailbox column combines modern design with top-notch craftsmanship – ideal for discerning builders and architects seeking an elegant solution for the integration of cameras and built-in speakers. Crafted from high-quality stainless steel and fully "Made in Germany" by Lippe Mailbox Manufacturing, this model represents durability, functionality, and stylish appearance. The polished front panel made of 2 mm stainless steel V2A 1.4301 impresses with its timeless appearance and high corrosion resistance.

 Compatible with common manufacturers: LOXONE, Siedle, Busch-Jaeger, Gira, TCS, Legrand BTicino, Ritto, STR Elektronik, ELCOM, HHG, Comelit, Mobotix, HIKVISION, and many more available upon request.

The **preparation for a camera** (not included) provides a secure foundation for modern video surveillance directly at the entrance. A **preparation for built-in speakers** is also possible – optionally with a suitable universal adapter for various intercom systems. This allows the mailbox to be perfectly adapted to your existing technology.

The GRIMM mailbox impresses with its modern design, high-quality workmanship, and thoughtful functionality. Equipped with a classic lever lock made of stainless steel, including a dust cover, the locking mechanism is reliably protected from weather influences and ensures a long service life. Mail retrieval is conveniently from the back – ideal if the mailbox is integrated into a wall or fence system. Mail can be inserted from the front and is supported by high-quality axle dampers, enabling a gentle and quiet closing of the mail flap. Thanks to the practical design, your mail remains secure in the box, even when the flap is opened. The GRIMM is particularly flexible with its double-box system: the column can be installed during the shell construction phase, while the front panel is only mounted after the construction work is completed. This protects the mailbox from dirt and damage during the building phase and ensures a perfect appearance upon moving in.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format, which can be inserted without creasing. The GRIMM mailbox impresses with its durable quality, timeless design, and thoughtful functionality.

A special feature of the Design Mailbox Column GRIMM is the fully welded stand column made of solid stainless steel V2A 1.4301. This construction guarantees maximum stability and an exceptionally long lifespan – even with continuous outdoor use. The fully welded construction results in a seamless, robust body without visible screws or plug connections, which not only highlights the elegant appearance but also prevents moisture and dirt from entering. The precisely finished seams ensure a uniform appearance and give the column a particularly high-quality feel. Additionally, the construction allows for invisible cable routing within the column, so all electrical connections for the DoorBird video intercom system and other smart home components can be safely and securely installed. This unique manufacturing process sets new standards in design and functionality, making the GRIMM mailbox column a future-proof solution for modern architectural projects.

- High-quality mailbox column made entirely of stainless steel for free-standing installation.
- Front panel made of 2 mm stainless steel V2A 1.4301, polished.
- Quality manufacturing – Made in Germany by Lippe Mailbox Manufacturing.
- Preparation (built-in speaker not included) for intercom system available. Optionally with universal adapter for all standard built-in speakers.
- Optional preparation (camera not included) for a camera.
- House number approximately 70mm high (max. 3 digits) with energy-saving LED lighting 12V DC approx. 50mA / 1W, white.
- Optionally replaceable nameplate made of stainless steel with laser engraving or nameplate made of plexiglass.
- 8-12V DC short-stroke doorbell button with LED ring lighting (Blue, White, Red, or Green). The lighting of the doorbell button cannot be powered through the control unit. It must be connected to an additional power supply 8-12 V DC.
- Optional 8-12V DC short-stroke button with pictogram available.
- Includes EVN LED transformer / power supply IP65 12V/DC 0.1−4W for the LED lighting (house number, doorbell button, and nameplate if selected).
- High-quality lever lock including 2 keys with key number.
- The rear access door with an opening limiter opens from top to bottom, preventing the mail from falling out.
- Front-side insertion with high-quality axle dampers for very quiet mail insertion.
- DIN/EN 13724 compliant mailbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – even large letters remain undamaged. Additional mail retrieval protection made of stainless steel integrated.
- Optimal weather protection provided by recessed panel.
- Double-box system: the front panel can be conveniently installed after completion of construction work and changed at any time.
- The fully welded stand column is made of 2mm stainless steel V2A 1.4301, polished. The height is 1.70 m.
- Invisible cable entry through the body possible.
- The column comes with a base plate made of VA. It is 10 mm thick and is refined with a cover plate. This conceals the mounting anchors.

Important Information:

To achieve optimal water protection for your mail, it is advisable to place the mailbox or mailbox system under a canopy whenever possible.

The mail is only protected from water if it is completely placed in the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Series	GRIMM
Number of bell push buttons	1 button
Functions	Light button, Camera, Intercom, Fingerprint, Keypad
Functional box prepared for manufacturer	LOXONE, GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, HHG, HIKVISION, PCS, Sesam, ekey, Comelit, Schneider Intercom / COMMEND, Mobotix
Name labelling	Laser-cut engraving, Nameplate, Laser-engraved , Illuminated laser-cut engraving
Mounting type	Free-standing
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
House number	House number as laser engraving, House number as laser cut, illuminated
Number of boxes	with 1 letterbox
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
Removal of mail	On the back
