Product number 215-STL-PK600-1BK-SPR-LOX2

Product description

Freestanding XXL parcel box GOETHE with 1 mailbox and LOXONE Intercom/Code Touch 1x2 prepared right - sluice system - RAL colour of choice

Parcel delivery has changed significantly in recent years – today customers expect more flexibility and security than ever before. With the **Paketbriefkasten GOETHE** from Briefkasten Manufaktur you rely on an optimal combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium, powder-coated in the RAL colour of your choice. The column is **prepared for LOXONE Intercom/Code Touch 1x2**. The flush-mounted design allows seamless integration of up to two LOXONE system modules (not included) via a well-thought-out mounting system. The preparation is intended for 1 x LOXONE Intercom (including cut-out for sound emission) + 1 x LOXONE NFC Code Touch/Touch Pure.

The **mailbox** (400 x 400 mm) is made from stainless steel 1.4016 (corrosion-resistant, magnetic stainless steel), powder-coated in a RAL colour of your choice. It is equipped with an innovative push-key lock that is keyed alike with the parcel box and supplied with ten keys. Letter insertion and retrieval take place from the front. The insertion flap is fitted with high-quality hinge dampers, allowing mail to be deposited particularly quietly. The mailbox complies with **DIN/EN 13724** with an insertion size of 3.5 x 36.0 cm – sufficient for C4 envelopes in landscape format without folding. The retrieval door opens downwards, so mail cannot fall out towards you. The mailbox dimensions provide a capacity of approx. 64 litres. The innovative push-key lock is discreetly hidden inside: the key is simply inserted – no turning required – and the door opens.

The generous **parcel box** (600 x 1200 mm) is also made from stainless steel 1.4016, powder-coated in the RAL colour of your choice. It has a volume of 192 litres and allows delivery of parcels up to a size of 555 x 375 x 305 mm (W x H x D), which corresponds to DHL parcel size L. The parcel insertion flap is damped and closes particularly quietly. Thanks to the specially developed delivery sluice, your parcel is automatically transferred into the secure retrieval compartment after insertion. The sluice is immediately ready for further deliveries and remains isolated from the retrieval compartment – ensuring your consignments are optimally protected at all times. Any delivery service (e.g. DHL, DPD, TNT, GLS, Hermes) can use the parcel mailbox. Depending on placement, even up to four DHL parcels of size M can fit inside.

Briefkasten Manufaktur places the greatest value on high-quality materials. Stainless steel provides extremely high corrosion resistance and an elegant surface finish. Quality assurance begins with the selection of our raw material suppliers and only ends when the parcel mailbox arrives with you in the required quality. Trust the **Paketbriefkasten GOETHE** – a secure, flexible and stylish solution for your mail and parcel delivery. A product that combines traditional craftsmanship with the latest technology – Made in Germany by Briefkasten Manufaktur Lippe.

- High-quality parcel mailbox made of stainless steel and aluminium, powder-coated in the RAL colour of your choice.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.

To achieve optimal protection of your mail from water, the mailbox or mailbox system should, if possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a valid reason for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GOETHE
Functions	Newspaper compartment, Camera, Intercom, Fingerprint, Keypad, Parcel compartment
Functional box prepared for manufacturer	LOXONE
Number of boxes	with 1 parcel box, with 1 letterbox
