## Product description

## 3-unit stainless steel surface-mounted mailbox Design BASIC Plus 382XA AP with bell box - Stainless steel V2A

High-quality surface-mounted mailbox for 3 parties made in Germany by Briefkasten Manufaktur. The mailbox is made entirely of stainless steel V2A, brushed. The very high-quality workmanship and the well thought-out concept make this mailbox one of our top sellers. A rain drip edge for optimal water protection, a continuous rubber lip for quiet insertion, the solid interchangeable nameplate, a practical mail retention bar and the very robust lock characterise this surface-mounted mailbox.

The mailbox systems of the BASIC Plus collection are distinguished by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The design has been developed by our own engineers with a view to high flexibility/modularity, easy replacement of spare parts and uncomplicated self-assembly. Spare parts are directly available for all BASIC Plus systems.

Thanks to the design, self-assembly is straightforward. The mailbox system is prepared for uncomplicated complete installation; there is no need for elaborate wall mounting of individual boxes. 3-unit surface-mounted mailbox made of weather-resistant stainless steel V2A 1.4301, brushed to 240 grit.

## Benefits at a glance

### Stainless steel side cladding with rain canopy

Side cladding and rain canopy are made of stainless steel V2A 1.4301, brushed to 240 grit, and complement the system as structurally coordinated weather protection.

### Generous letter slot

The insertion opening measures 35 × 325 mm and is designed for DIN C4 landscape. The mailbox configuration complies with DIN EN 13724.

### Quiet insertion and convenient retrieval

The integrated flap damper with rubber seal reduces impact noise during insertion. The mail retention bar holds items back during retrieval.

### Integrated bell and intercom area

Bell box made of stainless steel V2A 1.4301, brushed to 240 grit. A stainless steel doorbell push type 4 is used as the bell button. Optionally prepared with a speaker grille for the installation of commercially available intercom systems or built-in loudspeakers. (Intercom system/built-in loudspeaker not included). A version with the Comelit Ultra video complete kit is also available as an option.

### Quality manufacturing and thoughtful design

The system is manufactured at the Briefkasten Manufaktur in Germany. The design is intended for uncomplicated self-assembly.
