Product description

Module with data socket - JUNG UAE 8-8 UPOK6 with stainless steel hinged cover ES 2990 KL LAN

The modular network module is the appropriate addition for modular socket columns and allows a neat integration of network connections directly on the unit. It combines the JUNG data outlet UAE 8-8 UPOK6 with the matching stainless steel hinged cover ES 2990 KL LAN, including centre plate and 'LAN' symbol.

The module was designed for use in ORDO socket columns. It is inserted into the designated module slot and securely fixed. The well-conceived design enables easy installation as well as the quick replacement of individual modules during maintenance or expansion.
