Freestanding designer parcel box GOETHE - airlock system - RAL colour of your choice | without mailbox | Front mail retrieval | Parcel compartment 400x1200x400

Product number 215-STL-PK

Product description

Freestanding design parcel box GOETHE® - sluice system - RAL colour of your choice

Parcel delivery has changed significantly in recent years – today customers expect more flexibility and security than ever before. With the GOETHE® parcel mailbox from Briefkasten Manufaktur you rely on an optimal combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium.

The GOETHE® parcel box features a specially designed delivery sluice. Once the delivery courier places your parcel inside and closes the sluice, the parcel automatically drops into the securely locked retrieval compartment below. The delivery sluice is immediately ready for further deliveries and is independently isolated from the retrieval compartment, providing the highest level of security for your parcels. A parcel box for effortless parcel receipt, carrier-independent parcel acceptance! Any parcel carrier (e.g. DHL, DPD, TNT, GLS, Hermes, or similar) can use this parcel mailbox. The spacious interior of the GOETHE® parcel box is designed to accommodate the DHL Paket M and several smaller parcels. Depending on the positioning of the DHL M parcel, up to four such parcels can be stored safely and conveniently. Insertion of letters, magazines and catalogues is also no problem (no internal compartment separation possible!).

Briefkasten Manufaktur places particular emphasis on the selection of high-quality materials. The use of stainless steel in the manufacture of the GOETHE® parcel box ensures extremely high corrosion resistance and an attractively finished surface. Our quality assurance begins with the selection of our raw material suppliers and only ends when the parcel box reaches you in the required quality. Rely on the GOETHE® parcel box for a secure, flexible and stylish solution to your parcel delivery needs. Be convinced by a product that combines traditional craftsmanship with the latest technology – in the true spirit of Briefkasten Manufaktur.

Protected utility model according to DPMA file reference DE: 20 2021 101 679.5

- Side cladding made from 3 mm aluminium AlMg3 W19, powder-coated in a RAL colour of your choice.
- Rear panel made from 1 mm stainless steel 1.4301 V2A, powder-coated in a RAL colour of your choice.
- Base made from 40 x 40 x 2 mm stainless steel tube 1.4301 V2A, powder-coated in a RAL colour of your choice.
- Invisible mounting within the post. The overall height is 1.25 m.

Important information

Protection against water

To achieve optimal protection of your post from water, the mailbox or mailbox system should, where possible, be located under a canopy.

Postal items are only protected from water if they are completely placed inside the box and the insertion flap is closed. Partially inserted post allows moisture and dirt to enter the mailbox. This installation is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for a complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
