5-unit stainless steel surface-mounted mailbox system Design BASIC Plus 385XA AP - RAL selectable | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | ? Colour of your choice | with 5 mailboxes

Product number 385XA-5S

Product description

Slim surface-mounted mailbox system BASIC Plus 385XA for 5 households – RAL colour of your choice

The BASIC Plus 385XA surface-mounted mailbox system for 5 households is a robust wall-mounted solution for apartment buildings, smaller residential complexes as well as office and medical practice properties. The vertically arranged S-design reduces horizontal space requirements and uses the available wall height particularly efficiently.

The BASIC Plus mailbox system is manufactured entirely from V2A stainless steel and powder-coated in the selected RAL colour. The modular construction is designed for durability, simple installation and good spare-parts availability.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm insertion opening is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox is supplied with two keys with key number and an interchangeable nameplate beneath the letter flap.

The advantages of the BASIC Plus 385XA surface-mounted unit at a glance

Rain hood and side panels

Rain hood and side panels combine the individual compartments into a single closed surface-mounted unit. The coordinated cladding provides a calm front and a neat finish at the façade.

DIN C4 insertion and 12 litres volume

The 300 × 110 × 385 mm (W × H × D) compartments each offer approx. 12 litres of volume. The 35 × 265 mm insertion opening also accepts larger DIN C4 items in portrait format.

Quiet insertion and secure allocation

The rubber lip damps the insertion flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear assignment of the individual compartments.

Mounting rail for wall installation

The surface-mounted unit is designed for direct façade installation. A mounting rail simplifies installation; fixing material with screws and plugs is included in the described specification.

BASIC Plus in RAL colour of your choice

V2A stainless steel forms the robust base; the powder coating can be applied in the desired RAL colour to match the façade, front door and window profiles. BASIC Plus also stands for consistent use of V2A, modular construction and directly available spare parts.

Equipment of the BASIC Plus 385XA mailbox system

Mailbox system

Number of mailboxes 5 separately lockable compartments
Single compartment 300 × 110 × 385 mm (W × H × D)
Volume Approx. 12 litres per compartment
Material V2A stainless steel, powder-coated in RAL colour of your choice
Surface Powder coating in RAL colour of your choice
Standard DIN EN 13724

Mail and operation

Insertion opening 35 × 265 mm, suitable for DIN C4 portrait
Insertion flaps With noise-dampening rubber lip
Mail retrieval From the front
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the letter flap

Cladding and wall installation

Side cladding Close-fitting design
Rain hood Robust, matching the unit
Mounting type Surface-mounted wall installation
Installation aid Mounting rail
BASIC Plus Modular design with directly available spare parts
Fixing material Screws and plugs included; suitability for on-site wall construction must be checked
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall installation

Briefkasten Manufaktur Lippe GmbH

The wall must be even and sufficiently load-bearing. The supplied screws and plugs should only be used if they are suitable for the existing wall structure; for other substrates or external thermal insulation composite systems, appropriate fixing solutions must be determined on site.

Note on weather protection

Mail is best protected from moisture and dirt only when items are fully inserted and the letter flap is closed. Protruding letters or magazines may prevent the flap from closing fully.

BASIC Plus construction

The BASIC Plus series consistently uses V2A stainless steel and a modular, installation-friendly construction. Spare parts for BASIC Plus units are directly available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Number of boxes	with 5 letterboxes
