# 3-unit freestanding mailbox Design BASIC 385P-9016 ST-T - RAL 9016 traffic white | RAL 9016 Traffic White, fine-textured matt | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | with 3 mailboxes (1x3)

**Product number** 385P-9016-3S

## Product description

## Freestanding mailbox system BASIC 385P for 3 households – RAL 9016 Traffic White – narrow version

The freestanding BASIC 385P mailbox system for 3 households is designed for semi-detached and small multi-family houses, as well as office and medical practices. Three separately lockable mail compartments are arranged in a slim configuration to form a stable, clear overall unit. The free-standing installation allows a conveniently accessible position independent of the building façade.

The mailboxes are made of galvanised steel and are powder-coated in RAL 9016 Traffic White with a fine-textured matt finish. A close-fitting side cladding with rain hood and integrated rain gutters support weather protection. The solidly manufactured support posts made from anodised aluminium profile are also powder-coated in RAL 9016 Traffic White and form an especially stable, durable base for the freestanding unit.

Each of the three mail compartments has approximately 12 litres of volume. The 35 × 265 mm insertion slot is designed for DIN C4 items in portrait format. A noise-damping rubber lip reduces the impact of the insertion flap. Mail is retrieved from the front; the access doors open from left to right. Each mailbox is supplied with two keys with key number and a changeable nameplate below the insertion flap.

## The advantages of the BASIC 385P mailbox system at a glance

### Solid aluminium support posts

Solidly manufactured, anodised aluminium profiles form the stable base of the freestanding unit. The powder-coated construction combines high load-bearing capacity with a durable finish for outdoor use.

### DIN C4 insertion with 12-litre capacity

The mailboxes each offer approximately 12 litres of mail capacity. The 35 × 265 mm insertion slot accepts DIN C4 items in portrait format without larger envelopes needing to be unnecessarily folded.

### Quiet insertion and reliable operation

Rubber lips dampen the insertion flaps. Robust locks, two keys per compartment and protected changeable nameplates are designed for daily use in multi-occupancy properties.

### Screw mounting or casting into concrete

Depending on the selected version, the aluminium support posts are either screwed to a load-bearing foundation or permanently cast into concrete. This allows the unit to be mounted to suit the structural situation.

### Robust BASIC quality in RAL 9016 Traffic White

Galvanised steel, stainless steel components, solid aluminium support posts and German manufacturing create a resilient mailbox system for long-term use at the property entrance.

## Equipment of the BASIC 385P mailbox system

### Mailbox unit

**Number of mailboxes** 3 separately usable mail compartments
**Mailbox dimensions** 300 × 110 × 385 mm (W × H × D) per compartment
**Mail capacity** Approx. 12 litres per mailbox
**Material** Galvanised steel; side cladding and rain hood made of stainless steel V2A
**Surface finish** RAL 9016 Traffic White fine-textured matt
**Insertion slot** 35 × 265 mm, suitable for DIN C4 portrait
**Standard** Mailboxes conforming to DIN EN 13724

### Mail and operation

**Insertion flaps** With noise-damping rubber lip
**Mail retrieval** Front
**Door opening** From left to right
**Keys** 6 keys in total, 2 per mailbox
**Nameplates** 3 changeable nameplates below the insertion flaps
**Rain drainage** Integrated rain gutters

### Solid aluminium support posts

**Support posts** Solidly manufactured, anodised aluminium profile
**Coating** Powder-coated in RAL 9016 Traffic White
**Mounting options** Either screw mounting or casting into concrete
**Screw mounting** Support posts selectable in 1200 or 1600 mm
**Casting into concrete** Support posts selectable in 1600 or 2000 mm
**Delivery condition** Support posts and mailbox unit delivered divided for assembly
**Manufacture** Made in Germany by Briefkasten Manufaktur Lippe

**Mounting on a foundation**

For screw mounting, a level and sufficiently load-bearing foundation is required. The fixing materials must be selected to suit the foundation, the unit weight and the local installation conditions.

#### Mounting by casting into concrete

For the casting-into-concrete version, the extended aluminium support posts are anchored vertically in a suitably dimensioned concrete foundation. Foundation size and embedment depth must be matched to ground conditions, unit dimensions and local loads.

#### Note on weather protection

The rain hood, close-fitting side cladding and rain gutters support weather protection. Mail items must be fully inserted so that the insertion flaps can close completely. Under extreme weather conditions, slight moisture ingress may occur despite standard-compliant construction.

## Product properties

| | |
|---|---|
| **Material** | Steel, galvanised, Aluminium AlMg3 W19, Stainless steel V2A 1.4301 |
| **Series** | BASIC |
| **Boxes by volume** | Normal > 10 litres |
| **Name labelling** | Nameplate |
| **Mounting type** | Free-standing |
| **Removal of mail** | On the front |
| **Number of boxes** | with 3 letterboxes |
| **Surface/colour** | RAL 9016 traffic white |

## Dimensions

| | |
|---|---|
| **Height in mm** | 1 |
| **Height of single box in mm** | 110.0 |
| **Width of single box in mm** | 300.0 |
| **Capacity in litres** | 12 |
| **Height of letterbox slot in mm** | 35.0 |
| **Width of letter slot in mm** | 265.0 |
| **Height of letterbox in mm** | 330.0 |
| **Width of letterbox system in mm** | 300.0 |
| **Overall height in mm** | 1200.0 \| 1600.0 |
| **Total width in mm** | 400.0 |
| **Depth in mm** | 435.0 |
| **Weight in kg** | 33 |
| **Delivery condition** | Delivery is in blocks, freestanding elements / mailbox delivered in parts |
