Raised bed ARNIM with storage compartment – RAL 7016 Anthracite grey

Product number 354

Product description

Raised bed ARNIM with storage compartment – planting and storage in one solution

The ARNIM raised bed combines a comfortable planting area with a generous, enclosed storage compartment for garden accessories. The compact 2-in-1 construction is particularly suitable for terraces, balconies, courtyards and smaller garden areas where planting space and storage should be efficiently combined.

The elevated planting area provides space for herbs, flowers, vegetables and other plantings. Below the planting area is a separately accessible storage compartment for appropriate garden tools, planting accessories or other utensils.

An integrated drainage system supports controlled water runoff and reduces the risk of waterlogging in the planting area. The surface in RAL 7016 Anthracite grey fine-textured matt finish also provides a clear, modern aesthetic for outdoor areas.

The advantages of the ARNIM raised bed at a glance

Raised bed and storage in one

ARNIM combines an elevated planting area with an enclosed storage compartment. Garden accessories are therefore kept close at hand and neatly stowed.

Integrated drainage system

The integrated drainage system supports the controlled removal of excess water. This protects the planting area from unnecessary waterlogging when filled correctly.

Comfortable gardening at a convenient height

The elevated planting area makes many tasks around sowing, care and harvesting easier. Herbs, vegetables, flowers and decorative plants can be reached comfortably without having to work at ground level.

Generous enclosed storage

Approximately 230 litres of storage space are available beneath the planting area. Suitable garden tools, planting accessories and other utensils can thus be stored protected and neatly at the raised bed.

RAL 7016 Anthracite grey

The powder-coated surface in RAL 7016 Anthracite grey fine-textured matt finish emphasises the linear design of the raised bed and pairs particularly well with modern architecture and other anthracite-coloured elements outdoors.

Equipment of the ARNIM raised bed

Planting area

Version Elevated raised bed with underlying storage compartment
Planting volume approx. 98 litres
Drainage Integrated drainage system
Use Herbs, vegetables, flowers and decorative plantings
Planting Adjust fill quantity to the location and chosen planting

Storage and operation

Storage space approx. 230 litres
Load capacity of storage compartment max. 150 kg when used as intended
Access Front-facing enclosed storage compartment
Intended use For suitable garden tools and utensils
Surface RAL 7016 Anthracite grey fine-textured matt

Placement and installation

Location Terrace, balcony, courtyard and garden
Substrate Level and permanently load-bearing
Levelling feet Adjustable for alignment, according to the assembly instructions
Assembly Assembly kit for self-assembly
Instructions Assembly and operating instructions included

Note on filling

Wet soil, growing media and retained water significantly increase the weight of the raised bed. Filling should be carried out evenly and adapted to the conditions of the installation site. Before filling, the raised bed must be fully assembled and securely levelled.

Note on the drainage system

The integrated drainage system must be fully assembled in accordance with the assembly instructions. The intended drainage paths must be kept clear so that excess water can be discharged in a controlled manner.

Note on the storage compartment

The storage compartment is intended for suitable garden accessories. Items should be stored so that no pressure is applied to doors or components. Fertilisers, plant protection products and other hazardous substances must be stored in accordance with their safety instructions and out of the reach of children.

Product properties

Material	Steel, galvanised
Series	ARNIM
Mounting type	Free-standing
