Type 2 / Type 2 charging cable - length 5m - 3 phases - 32A - Mode 3 | straight | Typ 2 / Typ 2 | Length 5m

Product number 609ZB-EC-C2C2-5

Product description

Type 2 / Type 2 charging cable - length 5m - 3 phases - 32A - Mode 3

Safe and fast: With the PHOENIX CONTACT Mode 3 Type 2 / Type 2 charging cable, you can charge your electric car with up to 22 kilowatts - at your own wallbox or on the road at a public charging station. The type 2 connection has now become established for most electric vehicle models sold in Germany.

The two type designations stand for the plugs of the eCable. The type 2 plug belongs in the charging station or charging box, the other type 2 plug must be suitable for connecting your electric car. The three-phase plug is EU standard and has a maximum charging capacity of 22 kilowatts.

- Compatible with charging points with a type 2 socket throughout Europe
- Full flexibility with 5 metre cable length
- Made in Germany

Technical specifications

- Cable length: 5.0 metres
