Product description

Designer freestanding mailbox BRENTANO® ST-R - Design Elegance 3 - RAL colour of your choice

The BRENTANO® mailbox with elegant round tube stand elements, concealed lock and narrow stainless steel faceplate including name lettering in grey combines modern design with first-class functionality. Manufactured from high-quality materials and powder-coated, it impresses not only as a stylish design feature for your home but also through its durability. The clear lines and meticulous workmanship make the BRENTANO® mailbox the ideal choice for the highest design standards. Thanks to its robust construction it is particularly weather-resistant and ensures reliable protection for your mail. Perfect for anyone who values design and function in harmonious balance.

The generous dimensions of the BRENTANO® design mailbox provide a capacity of approx. 20 litres, allowing larger items such as C4 envelopes or magazines to be received without creasing – even after several days away. The top entry ensures comfortable handling. In addition, the mailbox is fitted with dampers that provide a smooth and quiet closing of the flap. The innovative Push-Key lock, concealed inside, allows opening without turning the key – simply insert the key into the opening and the door opens effortlessly. The clever arrangement of the lock and the access door prevents your mail from falling out when opened. Made from stainless steel and galvanised steel and additionally powder-coated, this mailbox is particularly durable and of high-quality manufacture.

The unique one-handed operation concept with the Push-Key lock, exclusively available from Briefkasten Manufaktur Lippe, allows particularly simple handling: with only one hand you can open the mailbox, remove the mail and close it again. Protected by a utility model (DPMA file number DE: 20 2021 101 679.5), this innovation provides real added value.

Thanks to its design, self-assembly is straightforward.

Important information:

To achieve optimal water protection for your mail, the mailbox or mailbox system should, where possible, be installed under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Partially inserted mail allows moisture and dirt to enter the mailbox. This unit is protected against water ingress according to DIN EN 13724. Water ingress is not a valid reason for complaint.
