Designer flush-mounted letterbox GOETHE UP with newspaper compartment - RAL colour of your choice - prepared for LOXONE intercom | with newspaper compartment | 100mm depth | Prepared for a 1x1 LOXONE Intercom

Product number 215-UP-1-SP-ZF-LOX1-LOX1

Product description

Designer recessed mailbox GOETHE UP with newspaper compartment - RAL of your choice - LOXONE Intercom prepared

High-quality recessed mailbox with newspaper compartment in a flush-fit design. The modern GOETHE mailbox is ideal for an upscale entrance area. The linear form without a visible lock gives this mailbox an especially elegant appearance. The LOXONE Intercom can be seamlessly integrated into the flush-fit design and replaced at any time. The preparation is provided for 1 x LOXONE Intercom (including aperture for sound output) or 1 x LOXONE Intercom (including aperture for sound output) + 1 x LOXONE NFC Code Touch/Touch Pure.

The dimensions of the single box provide a capacity of approx. 16 litres; the large aperture ensures that C4 envelopes and magazines, or post after several days' absence, do not become creased. The innovative Push-Key lock is concealed invisibly inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. With the position of the lock, this mailbox is designed so that the collection door prevents mail from falling out towards you. Thanks to the water-drip edge, the interior mail is optimally protected from the weather. The entry flap is fitted with high-quality hinge dampers, ensuring a quiet closure and preventing annoying rattling caused by weather.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy spare-part fitting and straightforward self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the construction, self-assembly is uncomplicated.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- Newspaper compartment opens from bottom to top.
- Function box (W x H 400 x 200 mm) made from stainless steel 1.4016 (magnetic stainless steel), powder-coated in RAL of your choice.
- Plaster cover frame made from 2 mm stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- **WITHOUT LOXONE Intercom/System components!**

Important information

Camera or intercom station preparation

We always recommend that electrical installation be carried out by a qualified electrician.

We offer preparation for intercom stations from various manufacturers for our mailboxes. The preparation does not include end devices; it comprises the provision of the mounting brackets, drillings & perforations so that you can easily mount your end device.

Water protection

To achieve optimal water protection of your mail, the mailbox or mailbox system should, where possible, be located under an overhang.

Mail is only protected from water if it is placed completely inside the box and the entry flap is closed. Partially inserted mail allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not grounds for a complaint.
