6-unit (3x2) freestanding stainless steel mailbox system Design BASIC Plus 385XP ST-T – RAL colour of your choice | ? Colour of your choice | 300x220x385 mm (WxHxD) - ???? Large 25 litres | with 6 letterboxes (2x3)

Product number 385XP220-6S

Product description

Freestanding large-capacity mailbox system BASIC Plus 385XP ST-T for 6 households – 25 litres – S configuration

The freestanding BASIC Plus 385XP ST-T mailbox system for 6 households is an exceptionally stable entry solution for apartment buildings, smaller residential complexes and commercial properties. Six individually usable mail compartments are combined into a clearly structured, durable overall system. This variant uses the series' S configuration and thus offers an alternative geometry for different plot and entrance situations.

The mailboxes are made of stainless steel V2A and are finely powder-coated in a RAL colour of your choice. Particularly noteworthy are the solid stand elements made from anodised aluminium profile: these are also powder-coated, very robustly executed and form an exceptionally sturdy base for the entire mailbox system. Stainless steel and solid aluminium combine durability with a clear, high-quality architecture.

Each compartment measures 300 × 220 × 385 mm (W × H × D) and offers approx. 25 litres of volume. The 35 × 265 mm insertion opening is designed for DIN C4 items in portrait orientation. A noise-damping rubber lip on the flap, front access, a robust lock and the interchangeable nameplate ensure comfortable everyday use.

The advantages of the BASIC Plus 385XP ST-T system at a glance

Solid aluminium stand elements

Solidly manufactured, anodised aluminium profiles form the particularly robust base of the system. The powder-coated profile construction is designed for high stability and long-term outdoor use.

Extra-large 25-litre compartments

The 300 × 220 × 385 mm mailboxes each offer approx. 25 litres of mail volume. The 35 × 265 mm insertion opening accepts DIN C4 mail in portrait orientation.

Quiet insertion and robust locking

A rubber lip reduces impact noise at the insertion flap. Robust locks, two keys per compartment and interchangeable nameplates are designed for daily use.

Engineered for high load capacity

The solid aluminium profiles form a torsionally rigid and load-bearing construction with the modular mailbox system. This makes the 385XP particularly suitable for demanding multi-occupancy and project solutions.

BASIC Plus – built for high load capacity

The consistent combination of stainless steel V2A and solid aluminium profiles makes the 385XP an exceptionally robust mailbox system. The modular construction simplifies installation, maintenance and the later replacement of individual components.

Equipment of the BASIC Plus 385XP ST-T mailbox system

Mailbox system

Number of mailboxes 6 separately lockable compartments
Single compartment 300 × 220 × 385 mm (W × H × D)
Mail volume Approx. 25 litres per compartment
Mailbox material Stainless steel V2A, powder-coated in a RAL colour of your choice
Insertion opening 35 × 265 mm, suitable for DIN C4 portrait
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and additional features

Insertion flaps With noise-damping rubber lip
Mail retrieval Front access
Keys 2 keys with key number per compartment
Nameplate Solid interchangeable nameplate
Rain hood Closely fitting, robust design
Rain drainage Integrated drainage channels for improved water protection

Solid aluminium stand elements

Stand elements Solid anodised aluminium profile, powder-coated
Construction Executed to be particularly robust and load-bearing
Surface RAL colour matching the mailbox system
Installation Freestanding installation on a suitable foundation
Side cladding Closely fitting design
BASIC Plus Modular, maintenance-friendly and installation-friendly design

Foundation and secure installation

The solid aluminium stand elements require a level and sufficiently load-bearing substrate or a suitably dimensioned concrete foundation. Foundation size, fixing and alignment must be matched to system weight, dimensions, ground conditions and local loads.

Note on weather protection

The rain hood, closely fitting side claddings and drainage channels support weather protection. Mail items must be fully inserted so that the insertion flaps can close completely.

BASIC Plus – robust and modular

The BASIC Plus construction relies on stainless steel V2A and solid aluminium profiles. The modular design simplifies installation and the later replacement of individual components and is designed for a long service life.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Number of boxes	with 6 letterboxes
Name labelling	Nameplate
Material	Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Mounting type	Free-standing
Removal of mail	On the front
Boxes by volume	Large > 16 litres
