2-unit designer mailbox pillar GOETHE with newspaper compartment - RAL colour of your choice | with newspaper compartment | with 2 mailboxes (1x2)

Product number 215-STL-160-2ZF

Product description

2-unit design mailbox column GOETHE with newspaper compartment - RAL of your choice

The modern 2-unit mailbox column GOETHE with newspaper compartment is ideal for a demanding entrance area. The straight-lined design without a visible lock gives this mailbox a particularly elegant appearance.

The dimensions of each individual box allow a capacity of approx. 16 litres; the large opening ensures that even DIN C4 envelopes and magazines — or post accumulated during several days' absence — are not crumpled. The innovative Push-Key lock is concealed invisibly inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. The positioning of the lock means the retrieval door prevents the post from falling out towards you. Thanks to the drip edge, the internal post is optimally protected from the weather. The insertion flap is fitted with high-quality hinge dampers, ensuring quiet closing and preventing annoying rattling caused by weather.

The newspaper compartment is particularly convenient, as the newspaper can be placed in completely. This protects the newspaper from the weather and allows it to be inserted without creasing. For removal, simply open the flap upwards and the newspaper can be taken out comfortably.

The GOETHE mailbox systems are characterised by the consistent use of stainless steel and aluminium. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility/modularity, easy spare-part replacement and uncomplicated DIY assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-assembly is straightforward.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- High-quality 2-unit mailbox column made of stainless steel and aluminium.
- Quality manufacture - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailboxes (BH 400x400 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL of your choice.
- Innovative Push-Key lock with 2 keys.
- Letters are inserted and removed from the front. Insertion flap with high-quality hinge dampers for very quiet post insertion.
- The mailboxes comply with DIN/EN 13724. Slot size (3.5 cm x 36.0 cm) for C4 in landscape orientation — large letters fit without bending.
- Retrieval doors open from top to bottom, preventing your post from falling out towards you.
- Newspaper compartments (BH 400x200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL of your choice with stainless steel laser engraving "NEWSPAPER" (font ARIAL; if name/house number, then in your chosen font).
- Newspaper compartment opens from bottom to top.
- Optimal protection from rain by drip edges and a rain hood made of 3 mm aluminium AlMg3 W19, powder-coated in RAL of your choice.
- Side cladding made of 3 mm aluminium AlMg3 W19, powder-coated in RAL of your choice.
- Rear panel and base plate made of 6 mm aluminium AlMg3 W19, powder-coated in RAL of your choice.
- Invisible fastening within the column via a reinforced base plate. Overall height is 1.65 m.

Important information

Water protection

To achieve optimal protection of your post from water, the mailbox or mailbox system should, where possible, be positioned under a canopy.

Mail is only protected from water when it is placed completely inside the box and the insertion flap is closed. Partially inserted post allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not grounds for complaint.
