Product number 562-UP-SPO-1-SF-GI106IP

Product description

Design Mailbox GRIMM® – A Masterpiece of Mailbox Manufacture

The Design Mailbox GRIMM® is the perfect eye-catcher for any entrance area. With its clear lines and understated design, this mailbox impresses on all levels. Developed with over 21 years of experience in mailbox construction, the GRIMM® combines the best of our DESIGNER and GOETHE® collections. The flush design of the DESIGNER mailbox meets the latest locking technology and optimal weather protection, as found in the GOETHE® collection.

The GRIMM® mailbox is not only an optical highlight, but also excels in functionality and quality. Made by Mailbox Manufacture, it stands for the highest value and reliability. Thanks to the innovative push-key lock, the mailbox can be closed easily and comfortably – even without the use of a key. Moreover, the lock is optimally protected against weather influences.

Additionally, the mailbox offers an intelligent retrieval system: the door opens from top to bottom, ensuring that the mail stays securely in the box and cannot fall out. The mail insertion is also conveniently from the front, with high-quality axle dampers ensuring a gentle closing of the mail flap. Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format, which can be inserted without creases. The GRIMM® mailbox impresses with its durable quality, timeless design, and thoughtful functionality. The GRIMM® mailbox combines sophisticated design with modern technology, ensuring a stylish and functional entrance area. Choose longevity and highest quality – with a mailbox that perfectly integrates into your architecture while providing optimal protection for your mail.

- High-quality mailbox completely made of stainless steel for flush or surface mounting.
- Front panel made of 2 mm stainless steel V2A 1.4301, available in brushed or powder-coated finish.
- Quality manufacturing – Made in Germany by Mailbox Manufacture Lippe.
- Innovative push-key lock including 2 keys with key number, comfortable closing without a key, optimally protected against weather.
- The retrieval door with opening limiter opens from top to bottom to prevent mail from falling out.
- Front mail insertion with a mail flap that closes gently with high-quality axle dampers.
- DIN/EN 13724 compliant mailbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – large letters remain intact.
- Optimal weather protection through recessed panel.
- Optional name engraving approximately 15-20mm high.
- Optional house number engraving approximately 70-80mm high.
- Double box system: Ideal for flush mounting. The panel can be conveniently installed after construction work is completed.
- Input box made of stainless steel 1.4016 (non-corrosive, magnetic stainless steel) with pre-punched cable entries on all sides.

Important Information:

To achieve optimal water protection for your mail, the mailbox or mailbox system should ideally be located under a canopy.

Mail items are only protected from water if they are completely placed in the box and the mail flap is closed. Mail that is not fully inserted allows the entry of moisture and dirt into the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a valid reason for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GRIMM
Connection technology	LAN
Number of bell push buttons	1 Taster
Functions	Camera, Intercom
Functional box prepared for manufacturer	GIRA
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
