9-unit surface-mounted mailbox system Design BASIC Plus 385 XA 220 - stainless steel - RAL colour of your choice | 300x220x385 mm (WxHxD) - ???? Large 25 litres | BI-Color VA brushed | ? Colour of your choice | with 9 mailboxes

Product number 385XA220-RALVA-9

Product description

Surface-mounted mailbox system BASIC Plus 385XA 220 for 9 households – 25 litres per compartment – BI-Color RAL / stainless steel

The BASIC Plus 385XA surface-mounted mailbox system for 9 households is a robust wall-mounted solution for apartment buildings, residential complexes and commercially used properties. The balanced arrangement groups all mail compartments into a clearly structured and visually cohesive wall unit.

The BASIC Plus BI-Color version combines powder-coated V2A stainless steel in a RAL colour of your choice with brushed stainless steel accents. This creates an individual, high-quality material combination for modern façades.

Each compartment measures 300 × 220 × 385 mm (W × H × D) and offers approximately 25 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait orientation. Doors open from left to right; each mailbox is supplied with two keys with key number and an interchangeable nameplate located beneath the mail flap.

The benefits of the BASIC Plus 385XA 220 surface-mounted system at a glance

Canopy and side panels

The canopy and side panels unite the individual compartments into a single, cohesive surface-mounted unit. The coordinated cladding provides a calm front and a neat finish at the façade.

25 litres of mail volume per compartment

The 300 × 220 × 385 mm (W × H × D) compartments each provide around 25 litres of volume. The 35 × 265 mm mail slot also accepts larger DIN C4 items in portrait orientation.

Quiet insertion and secure allocation

The rubber lip dampens the mail flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear assignment of the individual compartments.

Mounting rail for wall installation

The surface-mounted unit is designed for direct façade installation. A mounting rail facilitates installation; fixing materials with screws and wall plugs are included in the described configuration.

BI-Color with RAL and stainless steel

The combination of freely selectable RAL powder coating and brushed stainless steel creates targeted contrasts and emphasises the high-quality BASIC Plus design. BASIC Plus additionally stands for consistent use of V2A stainless steel, modular construction and readily available spare parts.

Equipment of the BASIC Plus 385XA 220 mailbox system

Mailbox system

Number of mailboxes 9 individually lockable compartments
Single compartment 300 × 220 × 385 mm (W × H × D)
Volume Approx. 25 litres per compartment
Material V2A stainless steel in BI-Color version: RAL powder coating with brushed stainless steel accents
Finish BI-Color: RAL colour of your choice / brushed V2A stainless steel
Standard DIN EN 13724

Mail and operation

Mail slot 35 × 265 mm, suitable for DIN C4 portrait
Mail flaps With noise-damping rubber lip
Mail retrieval Front access
Door opening From left to right
Keys 2 keys with key number per compartment
Nameplate Interchangeable nameplate below the mail flap

Cladding and wall mounting

Side cladding Close-fitting design
Canopy Robust canopy matching the unit
Mounting type Surface wall mounting
Mounting aid Mounting rail
BASIC Plus Modular design with readily available spare parts
Fixings Screws and wall plugs included; suitability for on-site wall construction must be checked
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall mounting

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs are only to be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems (ETICS), appropriate fixing solutions must be determined on site.

Note on weather protection

Mail is best protected from moisture and soiling only when items are fully inserted and the flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

BASIC Plus construction

The BASIC Plus series consistently uses V2A stainless steel and a modular, installation-friendly design. Spare parts for BASIC Plus systems are readily available.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), Brushed, RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Number of boxes	with 9 letterboxes
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
Boxes by volume	Large > 16 litres
Mounting type	Surface-mounted
