# Security letterbox type 114 monoform - stainless steel powder-coated - RAL of your choice | ? Colour of your choice

**Product number** 583-VAR

## Product description

## Security letterbox type 114 Monoform - stainless steel powder-coated - RAL of your choice

The security letter box **type 114 Monoform** is a wall-mounted letter box with increased security standards, ideally suited for areas with sensitive applications. Made from solid, powder-coated **V2A stainless steel** and equipped with sophisticated security features, this model fulfils the highest requirements in terms of **security**, **quality** and **design**. The powder-coated stainless steel design is both modern and timeless. It blends harmoniously into a variety of environments - from modern office buildings to law firms and public administration buildings. Stainless steel also stands for a long service life and recyclability. Type 114 Monoform therefore fulfils the principles of **sustainable, resource-conserving production** - durable, functional and environmentally conscious.

### Solid construction for increased security

This letterbox has a material thickness of **2.5 mm in the body** and **4 mm in the door**. It therefore offers above-average stability compared to standard letterboxes and is specifically designed to prevent unauthorised opening or removal of items.

For the security of the inserted items, it is equipped with **toothed plates** and **steel pins** that prevent the removal of mail items up to **B4** format. The V2A stainless steel construction also ensures **corrosion protection** and a long service life - in line with our commitment to using durable materials.

### Technical data at a glance

- Lock: ABUS profile half cylinder 30/10 (interchangeable, e.g. for locking systems)
- Weight: approx. 14 kg

## Areas of application - ideal for banks, tax consultants, car dealerships and local authorities

Thanks to its robust workmanship and secure design, this letterbox is particularly suitable for the following areas of application:

- **Banks and savings banks:** For the secure posting of bank transfers, confidential documents or keys outside of opening hours. The sturdy stainless steel construction prevents tampering or access to posted documents.
- **Tax consultants and law firms:** Ideal for handing over sensitive documents, contracts and receipts. Clients can hand in documents securely at any time - even outside office hours.
- **Car dealerships and garages:** Perfect for securely handing over keys or vehicle documents. The insertion slot is large enough for documents up to B4 - even thicker items can be inserted without any problems.
- **Municipalities and public institutions:** A reliable letterbox for citizens' mail, applications and official documents. The solid stainless steel construction offers a high level of protection against weathering and vandalism.

The **type 114 Monoform security letterbox** is the ideal solution for professional applications with high security requirements. Its solid stainless steel construction, sophisticated security mechanisms and versatility make it ideal for banks, tax consultants, car dealerships and public institutions.

With its combination of **security, quality and design**, the Type 114 Monoform stands for long-lasting craftsmanship quality - **Made in Germany**.

**Important information:**

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is completely placed in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
