# Surface-mounted mailbox system STORM for 12 households – 6-column – RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | with 12 mailboxes (6x2)

**Product number** 480A-12-6X2-7016

## Product description

## Surface-mounted mailbox system STORM for 12 households – wide configuration in RAL 7016 Anthracite Grey

The STORM surface-mounted mailbox system for 12 households in the wide configuration offers twelve separate mail compartments in just two rows. It is particularly suitable for larger multi-family houses, residential and commercial buildings and sites where a comfortable operating height and sufficient wall width are available.

All visible components of the mailbox system are made from high-quality galvanized steel and powder-coated in RAL 7016 Anthracite Grey fine-textured matt. The uniform, finely textured surface ensures a calm and high-quality architectural appearance even for the large system width.

Each household receives its own mailbox with a 35 × 340 mm DIN C4 letter slot, sound-damped flap, collection door with opening stop, mail-retaining bar, two keys and an interchangeable nameplate.

## The advantages of the STORM surface-mounted mailbox system at a glance

### Professional entrance solution for 12 households

Twelve separate mail compartments, high-quality materials and standard-compliant mail intake make this STORM system a professional solution for larger multi-family and residential properties.

### High-quality galvanized steel construction

The complete system, including mailboxes, rain canopy and side panels, is made from high-quality galvanized steel. This results in a robust, solid and particularly high-value multi-occupancy unit.

### RAL 7016 Anthracite Grey – fine-textured matt

RAL 7016 Anthracite Grey fine-textured matt visually unifies all visible components. The matt, finely textured surface underscores the high-quality character of the STORM range.

### 12 full-size DIN C4 mailboxes

Each user receives their own 35 × 340 mm letter slot for DIN C4 items in landscape format.

### High user comfort for many households

Rubber buffers reduce impact noise, opening stops make retrieval easier and mail-retaining bars keep items in the box when opened. Each household has its own lock and an interchangeable nameplate.

## Equipment of the STORM surface-mounted mailbox system

### Construction and surface

**Configuration**6 columns × 2 rows
**Mail compartments**12 separately lockable mailboxes
**Material**Galvanized steel
**Rain canopy and side panels**Galvanized steel

### Installation and manufacture

**Mounting type**Surface-mounted wall installation
**Mounting screws**Included in delivery
**Application**Larger multi-family houses, residential and commercial buildings as well as commercial properties
**Manufacture**Made in Germany by Briefkasten Manufaktur Lippe

#### Note on weather protection

A sheltered installation location reduces direct exposure to the weather. All mail items must be fully inserted so that the letter flaps can close.

#### Note on installing the wide system

Due to the large system width, a sufficiently load-bearing, even wall surface must be available. All fixing points must be professionally and evenly anchored. Fixings must be appropriate for the existing wall structure.
