Product number 215-STL-PK600-1BK-SPR-IND

Product description

Freestanding XXL parcel box GOETHE with 1 letterbox and provision for camera and intercom on the right - sluice system - RAL colour of your choice

Parcel delivery has changed dramatically in recent years – today customers expect more flexibility and security than ever before. With the **GOETHE parcel-letterbox** from Briefkasten Manufaktur you choose an optimal combination of innovative technology and outstanding design, manufactured from high-quality stainless steel and aluminium, powder-coated in the RAL colour of your choice.

 Compatible with common manufacturers: LOXONE, Siedle, Busch-Jaeger, Gira, TCS, Legrand BTicino, Ritto, STR Elektronik, ELCOM, HHG, Comelit, Mobotix, HIKVISION and many more available on request.

The **letterbox** (WxH 400 x 400 mm) is made from stainless steel 1.4016 (non-rusting, magnetic stainless steel), powder-coated in a RAL colour of your choice. It is equipped with an innovative push-key lock that is keyed alike with the parcel box and is supplied with ten keys. Letter insertion and removal are from the front. The flap is fitted with high-quality hinge dampers, allowing mail to be inserted particularly quietly. The letterbox complies with **DIN/EN 13724** with an insertion size of 3.5 x 36.0 cm – sufficient for C4 envelopes in landscape format without bending. The retrieval door opens downward so that your post cannot fall out. The dimensions of the letterbox provide a capacity of approx. 64 litres. The innovative push-key lock is discreetly hidden inside: the key is simply inserted – without turning – and the door opens.

The generous **parcel box** (WxH 600 x 1200 mm) is also made from stainless steel 1.4016, powder-coated in a RAL colour of your choice. It has a volume of 192 litres and allows delivery of parcels up to 555 x 375 x 305 mm (W x H x D), which corresponds to DHL parcel size L. The parcel insertion flap is damped and closes particularly quietly. Thanks to the specially developed delivery sluice, your parcel is automatically transferred into the secured retrieval compartment after insertion. The sluice is immediately ready for further deliveries and remains isolated from the retrieval compartment – so your consignments are optimally protected at all times. Any courier (e.g. DHL, DPD, TNT, GLS, Hermes) can use the parcel-letterbox. Depending on placement, up to four DHL parcels of size M may even fit inside.

Briefkasten Manufaktur places the greatest importance on high-quality materials. Stainless steel ensures extremely high corrosion resistance and an elegant surface finish. Quality assurance begins with the selection of our raw material suppliers and only ends when the parcel-letterbox reaches you in the required quality. Rely on the **GOETHE parcel-letterbox** – a secure, flexible and stylish solution for your mail and parcel deliveries. A product that combines traditional craftsmanship with the latest technology – Made in Germany by Briefkasten Manufaktur Lippe.

- High-quality parcel-letterbox made from stainless steel and aluminium, powder-coated in the RAL colour of your choice.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Letterbox (WxH 400 x 400 mm) made from stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in a RAL colour of your choice with stainless steel laser-engraved pictogram "BRIEF".
- 2 innovative push-key locks with 10 keys, keyed alike.
- Letter insertion and removal from the front. Insertion flap with high-quality hinge dampers for very quiet insertion of mail.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape – large letters fit without being bent.
- Retrieval door opens from top to bottom. This prevents your post from falling out towards you.
- Parcel box (WxH 600 x 1200 mm) made from stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in a RAL colour of your choice with stainless steel laser-engraved pictogram "PAKET".
- Parcel compartment volume: 192 litres, Max. parcel size: 555 x 375 x 305 mm (W x H x D), which corresponds to parcel size L.
- Parcel insertion flap with damping for quiet closing.
- Function compartment (WxH 200 x 400 mm) made from stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in a RAL colour of your choice.
- Provision (built-in speaker not included) for an intercom possible. Optionally with universal adapter for all common flush-mounted speakers.
- Optional provision (camera not included) for a camera.
- Interchangeable nameplate in stainless steel with laser engraving or nameplate made from plexiglass available.
- 8–12 V DC short-travel doorbell push-button with LED ring illumination (blue, white, red or green). The illumination of the bell push-button cannot be powered via the control unit. It must be connected to an additional 8–12 V DC power supply.
- Optionally an 8–12 V DC short-travel illuminated push-button with pictogram is available.
- Incl. EVN LED power supply / transformer IP65 12 V DC 0.1–4 W for the LED illumination (house number, bell push-button and nameplate if chosen).
- Optimal protection from rain via drip edges and a rain hood made from 3 mm aluminium AlMg3 W19, powder-coated in a RAL colour of your choice.
- Side cladding made from 3 mm aluminium AlMg3 W19, powder-coated in a RAL colour of your choice.
- Rear panel made from 1 mm stainless steel 1.4301 V2A, powder-coated in a RAL colour of your choice.
- Base made from 40 x 40 x 2 mm stainless steel tube 1.4301 V2A, powder-coated in a RAL colour of your choice.
- Invisible fixing and cable routing within the post. The overall height is 1.65 m.

Important information

Water protection

To achieve optimal water protection for your mail, the letterbox or letterbox system should, where possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against ingress of water according to DIN EN 13724. Water ingress is not a reason for complaint.
