4-unit freestanding mailbox system Design BASIC 385-7016 ST-R - RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | with 4 mailboxes (1x4) | 300x110x385 mm (WxHxD) - ?? Normal 12 litres

Product number 385-7016-4S

Product description

Freestanding 4-compartment mailbox system BASIC 385 for 4 households – slim, vertically orientated version – RAL 7016 Anthracite grey

The BASIC 385 is designed as a freestanding mailbox solution for 4 households. Robust materials, front access and the freedom to choose the installation location make this system particularly suitable for apartment buildings, smaller residential complexes as well as office and medical practice premises.

The S version is vertically orientated and uses the available system width especially efficiently – ideal for narrower property access ways.

The mailboxes are made of galvanised steel and powder-coated in RAL 7016 Anthracite grey with a fine-textured matt finish. A close-fitting side cladding with rain hood unites the individual mailboxes into a single, closed system.

Each compartment has an aperture of 35 × 265 mm for DIN C4 items in portrait format. A noise-damping rubber lip reduces impact noise, while the front retrieval doors open from left to right. Each mailbox is supplied with two keys with key number and an interchangeable nameplate located beneath the flap.

The advantages of the BASIC 385 at a glance

Massive stainless steel stand posts

Round-tube stand posts approx. 60 mm in diameter in brushed stainless steel V2A 1.4301 form a stable base for the freestanding mailbox system. The robust construction is designed for long-term use at property entrances.

Large aperture to DIN EN 13724

The aperture of 35 × 265 mm is designed for DIN C4 items in portrait format. Even larger envelopes can be inserted without folding.

Quiet deposit and convenient retrieval

A noise-damping rubber lip reduces the impact of the insertion flaps. Mail is retrieved from the front via doors that open from left to right.

Durable finish in RAL 7016

The matt fine-textured surface in Anthracite grey combines a modern appearance with a resilient coating on the galvanised steel.

Proven BASIC quality Made in Germany

The combination of solid material selection, DIN EN 13724-compliant compartments and an installation-friendly construction makes the BASIC 385 a durable solution for daily use.

Equipment of the BASIC 385 mailbox system

Mailbox system

Design Slim, vertically orientated design
Number of mailboxes 4 individually usable compartments
Material of mailboxes Galvanised steel
Finish RAL 7016 Anthracite grey fine-textured matt
Rain hood / side cladding Galvanised steel, powder-coated in RAL 7016 Anthracite grey fine-textured matt
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and operation

Aperture 35 × 265 mm, suitable for DIN C4 portrait
Insertion flaps With noise-damping rubber lip
Mail retrieval From the front
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the flap
Standard Mailboxes compliant with DIN EN 13724

Stand posts and equipment

Stand posts Round tube approx. 60 mm from stainless steel V2A 1.4301, brushed
Installation types Available either for bolted mounting or for concreting-in
Fixings Anchor bolts for bolted installation not included; select appropriate fixings to suit the foundation separately

Mailbox size and volume

The BASIC 385 is available with different mailbox sizes depending on the product configuration. The standard version 300 × 110 × 385 mm offers approx. 12 litres of volume; depending on the variant 300 × 220 × 385 mm with approx. 25 litres of volume is also available.

Installation by concreting-in

For the freestanding system we recommend a sufficiently dimensioned concrete foundation. When concreting-in the stainless steel stand posts must be aligned plumb and permanently anchored in the foundation. Foundation size and embedment depth should be adapted to ground conditions, system weight and local circumstances.

Bolted installation on a foundation

For bolted installation a flat, load-bearing concrete foundation is required. Suitable anchor bolts or fixings must be selected to match the substrate and the system load. For the BASIC-385-ST-R variants, anchor bolts are not included in the standard scope of supply.

Note on weather protection

Mail is best protected from moisture and soiling only when fully inserted and the flap is closed. Protruding items can prevent the flap from closing completely. Under extreme weather conditions, moisture may enter the mailbox despite standards-compliant design.

Product properties

Material	Steel, galvanised, Stainless steel V2A 1.4301
Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), Brushed, RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Boxes by volume	Normal > 10 litres
Number of boxes	with 4 letterboxes
Name labelling	Nameplate
Mounting type	Free-standing
Removal of mail	On the front
