20-unit 7x3 surface-mounted mailbox system Design BASIC 385A- VA AP - stainless steel V2A, brushed | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | with 20 mailboxes | Stainless steel, brushed

Product number 385A-VA-20W

Product description

Wide surface-mounted mailbox system BASIC 385A for 20 units – stainless steel V2A brushed

The BASIC 385A surface-mounted mailbox system for 20 units is a robust wall solution for larger apartment buildings, residential complexes and commercial properties. The wider W variant distributes the mailboxes across a multi-column front and keeps the overall system proportionally lower and more orderly.

The mailbox system is made from high-quality stainless steel V2A with a brushed finish. Mailboxes, cladding and rain hood form a timeless, low-maintenance and durable stainless steel unit.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm aperture is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox is supplied with two keys with a key number and an interchangeable nameplate beneath the flap.

The advantages of the BASIC 385A surface-mounted system at a glance

Rain hood and side cladding

Rain hood and side panels join the individual compartments into a closed surface-mounted system. The coordinated cladding provides a calm front and a neat finish at the façade.

DIN C4 aperture and 12 litres volume

The 300 × 110 × 385 mm (W × H × D) compartments each provide approx. 12 litres of volume. The 35 × 265 mm aperture also accepts larger DIN C4 items in portrait format.

Quiet posting and secure allocation

The rubber lip damps the posting flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear assignment of the individual compartments.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail simplifies installation; fixings with screws and wall plugs are included in the described configuration.

Entirely in brushed stainless steel

The V2A version combines a high-quality metal surface with a robust construction for long-lasting surface-mounted mailbox systems. The system is manufactured in Germany by Briefkasten Manufaktur.

Equipment of the BASIC 385A mailbox system

Mailbox system

Number of mailboxes 20 separately lockable compartments
Single compartment 300 × 110 × 385 mm (W × H × D)
Volume Approx. 12 litres per compartment
Material Stainless steel V2A 1.4301, brushed
Surface Stainless steel V2A 1.4301, brushed
Standard DIN EN 13724

Mail and operation

Aperture 35 × 265 mm, suitable for DIN C4 portrait
Posting flaps With noise-damping rubber lip
Mail retrieval Front access
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the flap

Cladding and wall mounting

Side cladding Close-fitting design
Rain hood Robust, system-matching design
Mounting type Surface-mounted wall installation
Installation aid Mounting rail
Fixings Screws and wall plugs included; suitability for the wall construction on site must be checked
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall mounting

The wall must be flat and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall structure; for other substrates or external thermal insulation composite systems (ETICS), appropriate fixing solutions must be specified on site.

Note on weather protection

Mail is best protected from moisture and soiling only when items are fully inserted and the flap is closed. Overhanging letters or magazines may prevent the flap from closing completely.

Product properties

Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Number of boxes	with 20 letterboxes
Removal of mail	On the front
Surface/colour	Brushed
Mounting type	Surface-mounted
