10-unit freestanding stainless steel mailbox system Design BASIC Plus 385XP ST-T - RAL colour of your choice | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | ? Colour of your choice | with 10 mailboxes

Product number 385XP-10

Product description

Freestanding stainless steel mailbox system BASIC Plus 385XP ST-T for 10 households

The freestanding BASIC Plus 385XP ST-T mailbox system for 10 households is an especially sturdy entrance solution for larger apartment buildings, residential developments and commercial properties. Ten individually usable mail compartments are combined into a clearly structured, durable overall system.

The mailboxes are made of stainless steel V2A and are high-quality powder-coated in a RAL colour of your choice. Particularly noteworthy are the solid upright posts made from anodised aluminium profile: these are also powder-coated, executed for high stability and form an exceptionally robust base for the entire mailbox system. Stainless steel and solid aluminium combine durability with a clear, high-quality architecture.

Each compartment measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait format. A noise-damping rubber lip on the flap, front access for mail retrieval, a robust lock and the interchangeable nameplate ensure comfortable day-to-day use.

The advantages of the BASIC Plus 385XP ST-T system at a glance

Solid aluminium upright posts

Solidly manufactured, anodised aluminium profiles form the particularly robust base of the system. The powder-coated profile construction is designed for high stability and long-term outdoor use.

Robust multi-occupancy solution for 10 households

Ten separate mailboxes are combined in a stable freestanding system. Each compartment remains clearly assigned to a user and can be locked separately.

DIN C4 slot with 12-litre volume

The 300 × 110 × 385 mm compartments each offer approx. 12 litres of mail volume. The 35 × 265 mm slot accommodates DIN C4 letters in portrait orientation.

Quiet insertion and robust locking

A rubber lip reduces impact noise on the insertion flap. Robust locks, two keys per compartment and interchangeable nameplates are designed for daily use.

BASIC Plus – built for high durability

The consistent combination of stainless steel V2A and solid aluminium profiles makes the 385XP an especially robust mailbox system. The modular construction facilitates installation, maintenance and the later replacement of individual components.

Equipment of the BASIC Plus 385XP ST-T mailbox system

Mailbox system

Number of mailboxes 10 individually lockable compartments
Single compartment 300 × 110 × 385 mm (W × H × D)
Mail volume Approx. 12 litres per compartment
Mailbox material Stainless steel V2A, powder-coated in a RAL colour of your choice
Mail slot 35 × 265 mm, suitable for DIN C4 portrait
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and additional functions

Insertion flaps With noise-damping rubber lip
Mail retrieval Front access
Keys 2 keys with key number per compartment
Nameplate Solid interchangeable nameplate
Canopy Close-fitting, robust design
Rain drainage Integrated rain drainage channels for improved water protection

Solid aluminium upright posts

Upright posts Solid anodised aluminium profile, powder-coated
Construction Executed for exceptional robustness and load-bearing capacity
Finish RAL colour matching the mailbox system
Installation Freestanding installation on a suitable foundation
Side cladding Close-fitting design
BASIC Plus Modular, maintenance-friendly and designed for easy installation

Foundation and secure installation

The solid aluminium upright posts require a level and sufficiently load-bearing surface or a suitably dimensioned concrete foundation. Foundation size, anchoring and alignment must be matched to system weight, size, ground conditions and local loads.

Note on weather protection

The canopy, close-fitting side cladding and rain drainage channels support weather protection. Mail items must be fully inserted so that the insertion flaps can close completely.

BASIC Plus – robust and modular

The BASIC Plus construction relies on stainless steel V2A and solid aluminium profiles. The modular design facilitates installation and the later replacement of individual components and is intended for long service life.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Mounting type	Free-standing
Removal of mail	On the front
Number of boxes	with 10 letterboxes
