Designer flush-mounted mailbox GOETHE UP - RAL colour of your choice - Ready for LOXONE Intercom 2x1 | without newspaper compartment | 100mm depth | Prepared for dual LOXONE Intercom + Code Touch

Product number 215-UP-1-SP-LOX2

Product description

Design flush-mounted mailbox GOETHE UP - RAL colour of your choice - LOXONE Intercom prepared

High-quality flush-mounted mailbox manufactured in a flush-fitting design. The modern GOETHE mailbox is ideal for a sophisticated entrance area. The straight, restrained shape without a visible lock gives this mailbox an especially elegant appearance. The LOXONE Intercom can be integrated seamlessly into the flush-fitting design and exchanged at any time. The preparation is provided for 1 x LOXONE Intercom (including cut-out for sound output) or 1 x LOXONE Intercom (including cut-out for sound output) + 1 x LOXONE NFC Code Touch/Touch Pure.

The dimensions of the single box provide a capacity of approx. 16 litres; the large opening ensures that DIN-C4 envelopes and magazines — or post accumulated during several days' absence — are not creased. The innovative push-key lock is concealed invisibly inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. With the arrangement of the lock, this mailbox is designed so that the removal door prevents your post from falling out towards you. The internal mail is optimally protected from the weather by the water-drip edge. The insertion flap is fitted with high-quality hinge dampers, ensuring a quiet closing action and preventing annoying rattling caused by weather influences.

The mailbox systems of the GOETHE collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction was developed by our own engineers with a view to high flexibility and modularity, easy spare-part assembly and straightforward self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-assembly is straightforward.

Protected utility model according to DPMA file reference DE: 20 2021 101 679.5

- Flush-mounted mailbox completely made of stainless steel.
- Quality manufacture - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (HxW 400 x 400 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in a RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Mail insertion and removal are from the front. Insertion flap with high-quality hinge dampers for very quiet insertion of post.
- The mailbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape; large letters fit in here without being folded.
- The collection door opens from top to bottom, preventing your post from falling out towards you.
- Optional name lettering approx. 15–20 mm high.
- Optional house number lettering approx. 70–80 mm high.
- Function box (HxW 400 x 200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in a RAL colour of your choice.
- Render cover frame made from 2 mm stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- **WITHOUT LOXONE Intercom/system components!**

Important information

Camera or intercom preparation

We always recommend that the electrical installation be carried out by a qualified electrician.

We offer preparations for intercoms from various manufacturers for our mailboxes. The preparation does not include end devices; it consists of the provision of mounting brackets, drillings and cut-outs so that you can mount your device without difficulty.

Water protection

To achieve optimal water protection for your post, the mailbox or mailbox system should, wherever possible, be installed under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Partially inserted post allows moisture and dirt to enter the mailbox. This unit is protected against the ingress of water according to DIN EN 13724. Water ingress is not grounds for a complaint.
