19-unit 7x3 surface-mounted mailbox system Design BASIC 385A- VA AP - stainless steel V2A, brushed | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | Stainless steel, brushed | with 19 mailboxes

Product number 385A-VA-19W

Product description

Wide surface-mounted mailbox system BASIC 385A for 19 apartments – brushed stainless steel V2A

The BASIC 385A surface-mounted mailbox system for 19 apartments is a robust wall solution for larger multi-family houses, residential complexes and commercial properties. The wider W version distributes the mailboxes across a multi-column front and keeps the overall system comparatively lower and clear.

The mailbox system is made of high-quality stainless steel V2A with a brushed finish. Mailboxes, cladding and rain hood form a timeless, low-maintenance and robust stainless steel unit.

Each mailbox measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm letter slot is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox is supplied with two keys with a key number and an interchangeable nameplate located beneath the letter flap.

The advantages of the BASIC 385A surface-mounted system at a glance

Rain hood and side cladding

The rain hood and side panels unite the individual mailboxes into a closed surface-mounted system. The coordinated cladding ensures a calm front and a neat finish against the façade.

DIN C4 letter slot and 12 litres volume

The 300 × 110 × 385 mm (W × H × D) mailboxes each offer approx. 12 litres of volume. The 35 × 265 mm letter slot also accepts larger DIN C4 items in portrait format.

Quiet insertion and secure allocation

The rubber lip damps the letter flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure unambiguous use of the individual mailboxes.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade mounting. A mounting rail facilitates installation; fixings with screws and wall plugs are included in the described specification.

Completely in brushed stainless steel

The V2A version combines a high-quality metal surface with a robust construction for long-lasting surface-mounted mailbox systems. The system is manufactured in Germany by Briefkasten Manufaktur.

Equipment of the BASIC 385A mailbox system

Mailbox system

Number of mailboxes 19 individually lockable mailboxes
Single compartment 300 × 110 × 385 mm (W × H × D)
Volume Approx. 12 litres per mailbox
Material Stainless steel V2A 1.4301, brushed
Surface Stainless steel V2A 1.4301, brushed
Standard DIN EN 13724

Mail and operation

Letter slot 35 × 265 mm, suitable for DIN C4 portrait
Letter flaps With noise-damping rubber lip
Mail retrieval From the front
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the letter flap

Cladding and wall mounting

Side cladding Close-fitting design
Rain hood Robust, matching the system
Installation type Surface-mounted wall installation
Installation aid Mounting rail
Fixings Screws and wall plugs included; check suitability for the wall construction on site
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall mounting

The wall must be even and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation composite systems suitable fixing solutions must be determined on site.

Note on weather protection

Mail is best protected from moisture and soiling when items are fully inserted and the letter flap is closed. Protruding letters or magazines can prevent the flap from closing completely.

Product properties

Series	BASIC
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Number of boxes	with 19 letterboxes
Removal of mail	On the front
