Stopy letter flap lock

Product number BML-STPKV

Product description

Stopy letter flap lock for mounting in the nameplate punching

The Stopy plastic letterbox flap lock is fitted over the nameplate opening and protects against unwanted mail delivery. This is useful, for example, when a tenant moves out. This provides efficient protection against overfilled letterboxes during transitional periods.

It is fitted via the nameplate opening (legally protected). When the tenant moves out, you remove the nameplate. The Stopy letterbox flap lock is inserted into the nameplate opening from the outside and locked from the inside - done. The flap is blocked and the deliverer can see at a glance that the flat is empty. When the apartment is re-let, the Stopy is removed and the nameplate is put back into the opening. Stopy can be used several times and your letterbox system remains permanently attractive.

The advantages of the Stopy letterbox flap lock

- Your letterbox system stays clean and tidy.
- You don't have to deal with the former tenant's mail and advertising mail.
- Stopy is suitable for many letterbox types.
- Stopy can be used several times.
- Tool-free installation via the nameplate.
- Suitable for all letterbox types in the BASIC collection.
