Design flush-mounted letterbox GRIMM - polished stainless steel - LOXONE Intercom/Code Touch 1x1 prepared left | Left | Prepared for a 1x1 LOXONE Intercom | Stainless steel, brushed | Flush-mounted

Product number 562-UP-SPL-1-VA-LOX1

Product description

Design Letterbox GRIMM® – A Masterpiece of Letterbox Manufacturing

The Design Flush-Mounted Letterbox GRIMM unites modern design with first-class craftsmanship – ideal for discerning builders and architects seeking an elegant solution for integrating the LOXONE Intercom. Manufactured from high-quality stainless steel and entirely “Made in Germany” by the Letterbox Manufacturer Lippe, this model represents durability, functionality, and stylish aesthetics. The brushed front panel made from 2 mm stainless steel V2A (1.4301) impresses with a timeless appearance and high corrosion resistance. The flush design allows for seamless integration of up to two LOXONE system modules (not included) via a thoughtfully designed holding system. Preparation is provided for 1 piece LOXONE Intercom (including perforation for sound exit).

The letterbox GRIMM® is not only a visual highlight but also excels in functionality and quality. Thanks to the innovative push-key lock, the letterbox can be easily and comfortably operated with one hand. Open the door with a press and close it without using a key. The lock is optimally protected from weather influences. Additionally, the letterbox features an intelligent retrieval system: The door opens from top to bottom, ensuring that the mail remains securely inside and does not fall out. The mail is also comfortably deposited from the front, with high-quality dampers ensuring quiet closing of the drop flap. Uniquely, the GRIMM features a double box system: The installation box can be installed during the rough construction phase, while the front panel is mounted only after the construction work is completed – providing maximum flexibility for the future and protection from dirt and dust during the building phase. The installation box is made of stainless steel 1.4016 and has pre-punched cable entries on all sides to facilitate easy electrical installation.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format, which can be inserted without creasing. The letterbox GRIMM® impresses with its durable quality, timeless design, and thoughtful functionality.

- High-quality letterbox made entirely of stainless steel for flush mounting.
- Front panel made from 2 mm stainless steel V2A 1.4301, brushed.
- Quality manufacturing – Made in Germany by Letterbox Manufacturer Lippe.
- The LOXONE Intercom can be seamlessly integrated into the flush design and replaced at any time. Preparation is provided for 1 piece LOXONE Intercom (including perforation for sound exit). WITHOUT LOXONE Intercom/system components!
- Innovative push-key lock including 2 keys with key number, convenient locking without a key, optimally protected from weather.
- The retrieval door with opening limiter opens from top to bottom to prevent mail from falling out.
- Frontside mail insertion with high-quality dampers for very quiet mail entry.
- DIN/EN 13724 compliant letterbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – even large letters remain intact. Additional retrieval protection made of stainless steel integrated.
- Optimal weather protection provided by offset panel.
- Double box system: Ideal for flush mounting. The panel can be conveniently installed after the construction work is completed.
- Installation box made of stainless steel 1.4016 (rust-resistant, magnetic stainless steel) with pre-punched cable entries on all sides.

Important Information:

To achieve optimal water protection for your mail, the letterbox or letterbox system should ideally be located under a canopy.

Mail is only protected from water when it is completely placed inside the box and the drop flap is closed. Incomplete mail insertion allows moisture and dirt to enter the letterbox. This system is protected against water intrusion according to DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Series	GRIMM
Functions	Camera, Intercom, Fingerprint, Keypad
Functional box prepared for manufacturer	LOXONE
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Number of boxes	with 1 letterbox
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
Mounting type	Flush-mounted
