10-unit stainless steel freestanding mailbox Design BASIC Plus 385XP ST-T with doorbell box - RAL colour of your choice | Right | ? Colour of your choice | with 10 mailboxes

Product number 385XP-10S-SP-R

Product description

Freestanding mailbox system BASIC Plus 385XP ST-T with bell/intercom unit for 10 households – bell unit right / S arrangement

The freestanding BASIC Plus 385XP ST-T mailbox system for 10 households combines robust stainless steel mailboxes with an integrated bell/intercom unit. Mailbox system and visitor communication are thus combined in a stable, visually unified entrance solution for larger apartment buildings, residential complexes and commercial properties. In this version, the bell/intercom unit is positioned on the right.

The mailboxes are made from stainless steel V2A and are finished with a high-quality powder coating in a RAL colour of your choice. Particularly notable are the solid stand elements made from anodised aluminium profile: they are also powder-coated, manufactured to be very stable and provide an exceptionally robust base for the entire mailbox system. Stainless steel and solid aluminium combine durability with a clear, high-quality architecture.

Each mailbox measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of volume. The 35 × 265 mm aperture is designed for DIN C4 mail in portrait orientation. A noise-damping rubber lip on the flap, front mail collection, a robust lock and a replaceable nameplate ensure comfortable everyday use.

Key benefits of the BASIC Plus 385XP ST-T system at a glance

Mailbox and doorbell in one system

10 mailboxes are combined with a bell/intercom unit. This reduces additional separate components at the property entrance and creates a tidy overall appearance.

Solid aluminium stand elements

Solidly manufactured, anodised aluminium profiles form the particularly robust base of the system. The powder-coated profile construction is designed for high stability and long-term outdoor use.

DIN C4 aperture with 12-litre volume

The 300 × 110 × 385 mm mailboxes each offer approx. 12 litres of mail volume. The 35 × 265 mm aperture accepts DIN C4-format mail in portrait orientation.

Bell/intercom unit prepared

The integrated bell/intercom unit provides a central location for doorbell buttons and the integration of compatible intercom technology. The electrical components are configured to suit the planned system.

BASIC Plus – built for heavy duty

The consistent combination of stainless steel V2A and solid aluminium profiles makes the 385XP an especially robust mailbox system. The modular construction simplifies installation, maintenance and the later replacement of individual components.

Equipment of the BASIC Plus 385XP ST-T mailbox system

Mailbox system

Number of mailboxes 10 separately lockable mailboxes
Single box 300 × 110 × 385 mm (W × H × D)
Mail volume Approx. 12 litres per mailbox
Mailbox material Stainless steel V2A, powder-coated in a RAL colour of your choice
Aperture 35 × 265 mm, suitable for DIN C4 portrait
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and additional functions

Bell/intercom unit Integrated into the mailbox system
Position Right
Doorbell buttons Matched to the number of households
Intercom technology Provision for a compatible door communication solution
Electrical connection To be provided on site in accordance with the selected intercom technology
Note Intercom system and connection components depend on the chosen configuration

Solid aluminium stand elements

Stand elements Solid anodised aluminium profile, powder-coated
Construction Designed to be particularly robust and load-bearing
Surface RAL colour matching the mailbox system
Installation Freestanding installation on a suitable foundation
Side cladding Close-fitting design
BASIC Plus Modular, maintenance-friendly and designed for installation

Note on the bell/intercom unit

The specific intercom technology, power supply and cabling depend on the chosen door communication solution. Installation and connection should be carried out by appropriately qualified personnel.

Foundation and secure installation

The solid aluminium stand elements require a level and sufficiently load-bearing surface or a suitably dimensioned concrete foundation. Foundation size, fixing and alignment must be matched to the system weight, size, ground conditions and local loads.

Note on weather protection

A rain canopy, close-fitting side cladding and rain gutters support weather protection. Mail items must be fully inserted so that the flap can close completely.

BASIC Plus – robust and modular

The BASIC Plus construction relies on stainless steel V2A and solid aluminium profiles. The modular design simplifies installation and the later replacement of individual components and is designed for a long service life.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	BASIC
Number of bell push buttons	10 buttons
Functions	Light button, Intercom
Functional box prepared for manufacturer	GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, Comelit
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Mounting type	Free-standing
Removal of mail	On the front
Number of boxes	with 10 letterboxes
