Design flush-mounted letterbox GRIMM - polished stainless steel - LOXONE Intercom/Code Touch 1x1 prepared right | Right | Prepared for a 1x1 LOXONE Intercom | Stainless steel, brushed | Flush-mounted

Product number 562-UP-SPR-1-VA-LOX1

Product description

Design Mailbox GRIMM® – A Masterpiece of Mailbox Manufacturing

The Design Flush-Mounted Mailbox GRIMM combines modern design with first-class craftsmanship – ideal for discerning builders and architects seeking an elegant solution for the integration of the LOXONE Intercom. Manufactured from high-quality stainless steel and completely "Made in Germany" by the Lippe Mailbox Manufacturing, this model stands for durability, functionality, and stylish appearance. The brushed front panel made of 2 mm stainless steel V2A (1.4301) impresses with a timeless look and high corrosion resistance. The flush design allows for seamless integration of up to two LOXONE system modules (not included) via a well-thought-out holding system. Preparation is provided for 1 piece of LOXONE Intercom (including perforation for sound exit).

The GRIMM® mailbox is not only an optical highlight but also leads in functionality and quality. Thanks to the innovative push-key lock, the mailbox can be easily and comfortably operated with one hand. Open the door with a push and close it without the use of a key. The lock is optimally protected from weather conditions. Additionally, the mailbox features an intelligent retrieval system: the door opens from top to bottom, ensuring that the mail remains securely in the box and cannot fall out. The front insertion is also comfortable, with high-quality axle dampers ensuring a gentle closing of the insertion flap. Particularly unique is the GRIMM's double box system: the installation box can be installed during the structural phase, while the front panel can be added only after the completion of construction work – for maximum future flexibility and protection against dirt and dust during the construction phase. The installation box is made of stainless steel 1.4016 and features pre-punched cable entry points on all sides to facilitate simple electrical installation.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format, which can be inserted without creasing. The GRIMM® mailbox impresses with its durable quality, timeless design, and thoughtful functionality.

- High-quality mailbox made entirely of stainless steel for flush-mounted installation.
- Front panel made of 2 mm stainless steel V2A 1.4301, brushed.
- Quality manufacturing – Made in Germany by Lippe Mailbox Manufacturing.
- The LOXONE Intercom can be seamlessly integrated into the flush design and swapped at any time. Preparation is provided for 1 piece of LOXONE Intercom (including perforation for sound exit). WITHOUT LOXONE Intercom/system components!
- Innovative push-key lock including 2 keys with key number, convenient locking without a key, optimally protected from weather.
- The retrieval door with opening limiter opens from top to bottom to prevent the mail from falling out.
- Front insertion with high-quality axle dampers for very quiet insertion of the mail.
- DIN/EN 13724 compliant mailbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – large letters remain intact. Additional retrieval protection made of stainless steel integrated.
- Optimal weather protection through the recessed panel.
- Double box system: Ideal for flush-mounted installation. The panel can be comfortably installed after completion of construction work.
- Installation box made of stainless steel 1.4016 (corrosion-resistant, magnetic stainless steel) with pre-punched cable entry points on all sides.

Important Information:

To achieve optimal water protection for your mail, the mailbox or mailbox system should ideally be located under a canopy.

Mail is only protected from water when it is fully placed in the box and the insertion flap is closed. Incompletely inserted mail allows moisture and dirt to enter the mailbox. This system is protected against the ingress of water according to DIN EN 13724. Water ingress is not grounds for complaint.

Product properties

Series	GRIMM
Functions	Camera, Intercom, Fingerprint, Keypad
Functional box prepared for manufacturer	LOXONE
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Number of boxes	with 1 letterbox
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
Mounting type	Flush-mounted
