Designer surface-mounted letterbox GOETHE AP with newspaper compartment - RAL colour of your choice - prepared for LOXONE Intercom/Code Touch | with newspaper compartment | 200mm depth | Prepared for dual LOXONE Intercom + Code Touch

Product number 215-AP-1-SP-ZF-LOX1-LOX2H-200

Product description

Design surface-mounted mailbox GOETHE® AP with newspaper compartment - RAL colour of your choice - Prepared for LOXONE Intercom

High-quality surface-mounted mailbox with newspaper compartment in a flush-front design. The modern mailbox GOETHE® is ideal for an upscale entrance area. The straight-lined design without a visible lock gives this mailbox a particularly elegant appearance. The LOXONE Intercom can be integrated seamlessly into the flush-front design and exchanged at any time. The preparation is provided for 1 x LOXONE Intercom (including cut-out for audio output) or 1 x LOXONE Intercom (including cut-out for audio output) + 1 x LOXONE NFC Code Touch/Touch Pure.

The dimensions of the single compartment provide a capacity of approx. 16 litres; the large slot ensures that DIN C4 envelopes and magazines, or post accumulated during several days' absence, are not creased. The innovative push-key lock is hidden invisibly inside the mailbox. The key is simply inserted into the provided opening (no turning necessary) and the door opens. The arrangement of the lock is designed so that the retrieval door prevents mail from falling towards you. The internal mail is optimally protected from the weather by the water runoff edge. The insertion flap is fitted with high-quality hinge dampers, ensuring quiet closing and eliminating annoying rattling caused by weather conditions.

The surface-mounted mailbox systems of the GOETHE® collection are characterised by the consistent use of stainless steel and aluminium. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy spare-part assembly and straightforward self-installation. Spare parts for all GOETHE® systems are available directly in our shop.

Thanks to the design, self-installation is straightforward.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- High-quality surface-mounted mailbox made of stainless steel and aluminium.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (W x H 400 x 400 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Mail insertion and retrieval are from the front. Insertion flap with high-quality hinge dampers for very quiet insertion of post.
- The mailbox complies with DIN/EN 13724. Slot size (3.5 cm x 36.0 cm) for C4 in landscape orientation; large letters also fit without bending.
- Retrieval door opens from top to bottom. This prevents mail from falling towards you.
- Optional name engraving approx. 15–20 mm high.
- Optional house number engraving approx. 70–80 mm high.
- Newspaper compartment (W x H 400 x 200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice with stainless steel laser inscription "NEWSPAPER" (font ARIAL; if name/house number is chosen, then in your selected font).
- Newspaper compartment opens from bottom to top.
- Functional compartment (W x H 400 x 200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice.
- Optimal protection from rain due to rain runoff edges and a rain hood made from 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Side cladding made from 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Includes mounting rail for wall installation.
- **WITHOUT LOXONE Intercom/system components!**

Important information

Camera or intercom preparation

We strongly recommend that electrical installation is always carried out by a qualified electrician.

We offer preparation for intercoms from various manufacturers for our mailboxes. The preparation does not include end devices; it consists of providing the screw mounts, drillings & cut-outs so that you can mount your device without difficulty.

Water protection

To achieve optimal water protection for your mail, the mailbox or mailbox system should, where possible, be located under an overhang.

Mail is only protected from water when it is deposited entirely inside the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a valid reason for a complaint.
