Product description

The letterbox is made entirely of stainless steel V2A, powder-coated in a RAL colour. The very high-quality workmanship and the well thought-out concept make this recessed letterbox one of our top sellers. A rain-drainage lip for optimal water protection, a continuous rubber lip for quiet insertion, the sturdy interchangeable nameplate, a practical mail-retention bracket and the very robust lock characterise this recessed letterbox. The recessed frame made of stainless steel V2A is fitted with a foam-rubber gasket and guarantees very high durability.

The letterbox systems of the BASIC Plus collection are characterised by the consistent use of stainless steel V2A. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility/modularity, easy spare-part mounting and uncomplicated self-installation. Spare parts are directly available for all BASIC Plus systems.
