9-unit freestanding mailbox system Design BASIC 385P-7016-SP with bell-intercom unit incl. side cladding & rain canopy - horizontal mailboxes - Anthracite grey RAL 7016 | RAL 7016 Anthracite grey, fine texture, matt | Left | with 9 mailboxes

Product number 385P-7016-9S-SP-L

Product description

Freestanding mailbox system BASIC 385P with bell/intercom module on the left for 9 households – RAL 7016 Anthracite grey – narrow version

The freestanding BASIC 385P mailbox system for 9 households combines 9 individually usable mail compartments with an integrated bell function box. This brings mail reception, doorbell buttons and the preparation for a compatible door intercom system together in a robust, visually unified entrance solution for larger apartment blocks, residential complexes and commercial properties. In this variant, the bell/intercom module is positioned to the left of the mailbox unit.

The mailboxes are made from galvanised steel and are powder-coated in RAL 7016 Anthracite grey with a fine-textured matt finish. A close-fitting side cladding with rain canopy and integrated rain drainage channels support weather protection. The solidly manufactured upright posts are made from anodised aluminium profile, are also powder-coated in RAL 7016 Anthracite grey and form a particularly stable, durable base for the freestanding unit.

Each of the 9 mail compartments has approx. 12 litres capacity. The 35 × 265 mm aperture is designed for DIN C4 items in portrait orientation. A noise-damping rubber lip reduces the impact noise of the flap. Mail is retrieved from the front; the access doors open from left to right. Each mailbox is supplied with two keys with key number and a replaceable nameplate located below the aperture.

The advantages of the BASIC 385P mailbox system at a glance

Integrated bell function box on the left

The unit combines 9 mailboxes with 9 stainless steel doorbell buttons and a speaking aperture with universal adapter. This creates a central, tidy solution for mail and visitor communication.

Solid aluminium upright posts

Solidly manufactured anodised aluminium profiles form the stable base of the freestanding unit. The powder-coated construction combines high load-bearing capacity with a durable finish for outdoor use.

DIN C4 aperture with 12 litres capacity

Each mailbox offers approx. 12 litres of mail volume. The 35 × 265 mm aperture accepts DIN C4 items in portrait orientation without larger envelopes being unnecessarily bent.

Prepared for door communication

The speaking aperture with universal adapter is prepared for many commercially available built-in speakers.

Robust BASIC quality in RAL 7016 Anthracite grey

Galvanised steel, stainless steel components, solid aluminium upright posts and German manufacture create a resilient mailbox system for long-term use at the property entrance.

Equipment of the BASIC 385P mailbox system

Mailbox unit

Number of mailboxes 9 individually usable mail compartments
Mailbox dimension 300 × 110 × 385 mm (W × H × D) per compartment
Mail volume Approx. 12 litres per mailbox
Material Galvanised steel; side cladding and rain canopy made from stainless steel V2A
Finish RAL 7016 Anthracite grey fine-textured matt
Aperture 35 × 265 mm, suitable for DIN C4 portrait
Standard Mailboxes conforming to DIN EN 13724

Bell and intercom module

Bell function box Galvanised steel, powder-coated to match
Position Left
Doorbell buttons 9 round stainless steel doorbell buttons Type 4
Speaking aperture With universal adapter for common built-in speakers
Nameplate Impact-resistant and shatterproof design

Solid aluminium upright posts

Upright posts Solidly manufactured anodised aluminium profile
Coating Powder-coated in RAL 7016 Anthracite grey
Mounting options Choice of bolt-down mounting or concreting in
Bolt-down mounting Upright posts available in 1200 or 1600 mm
Concreting in Upright posts available in 1600 or 2000 mm
Delivery condition Upright posts and mailbox unit supplied divided for installation
Manufacture Manufactured in Germany by Briefkasten Manufaktur Lippe

Note regarding the bell/intercom module

The universal adapter is suitable for many commercially available built-in speakers. Intercom systems or built-in speakers, power supply and cabling are not part of the described basic equipment and must be provided to suit the planned system.

Mounting on a foundation

For bolt-down mounting, a level and sufficiently load-bearing foundation is required. Fixings must be selected to match the foundation, unit weight and local installation conditions.

Installation by concreting in

For the concreting-in version, the extended aluminium upright posts are secured plumb in a suitably dimensioned concrete foundation. Foundation size and embedment depth must be matched to ground conditions, unit dimensions and local loads.

Note on weather protection

The rain canopy, close-fitting side cladding and integrated rain drainage channels support weather protection. Mail items must be fully inserted so that the flap can close completely. Under extreme weather conditions, small amounts of moisture may penetrate despite norm-compliant construction.

Product properties

Material	Steel, galvanised, Aluminium AlMg3 W19, Stainless steel V2A 1.4301
Series	BASIC
Number of bell push buttons	9 buttons
Functions	Light button, Intercom
Functional box prepared for manufacturer	GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, Comelit
Number of boxes	with 9 letterboxes
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Mounting type	Free-standing
Surface/colour	RAL 7016 anthracite grey
Removal of mail	On the front
