Product number 864XS-1

Product description

Stainless steel parcel-mailbox pillar BASIC Plus 864XS with parcel compartment 550x370 - RAL colour of your choice

The stainless steel parcel-mailbox pillar BASIC Plus 864XS with parcel compartment 550x370 is a well-considered solution for those who require both secure parcel reception and a generously sized letterbox compartment. The pillar is manufactured from stainless steel V2A and aluminium, produced in Germany and powder-coated in the RAL colour of your choice. This results in a durable parcel-mailbox that integrates harmoniously into modern entrance areas.

The parcel compartment with 77 litres volume enables carrier-independent receipt of parcels from common delivery services. At the same time, the larger letterbox compartment with 370 x 330 x 385 mm offers ample space for daily mail, envelopes and larger consignments. The C4 horizontal front insertion ensures that even large letters can be inserted without creasing.

The BASIC Plus 864XS also impresses with a modular design, a weather-protected construction with side cladding and rain hood, as well as an insertion flap with rubber lip for quiet insertion. This makes this parcel-mailbox pillar particularly suitable for households with higher mail volumes that value durable materials, clear design and a powder-coated finish in the desired colour.

- Letterbox pillar with parcel compartment made of stainless steel V2A 1.4301 and aluminium, powder-coated in the colour of your choice.
- The complete letterbox pillar is constructed in a modular design, so each component can be replaced or changed at any time.
- Parcel compartment 370 x 550 x 385 mm (W x H x D) incl. parcel lock with latch or push-lock. With high-quality stainless steel laser engraving "PAKET".
- Parcel compartment volume: 77 litres, Max. parcel dimensions: 340 x 520 x 355 mm (W x H x D).
- Letterbox 370 x 330 x 385 mm (W x H x D). Front retrieval; the retrieval door opens from left to right.
- C4 crosswise insertion from the front — large letters can be inserted without creasing. Insertion flap with rubber lip.
- Compliant with DIN EN 13724.
- Includes 2 keys with key number per mailbox and flush-mounted two-part interchangeable nameplate beneath the insertion flap (without inscription; optionally "No advertising, thank you!").
- Optional high-quality stainless steel laser engraving. House number approx. 80–100 mm high & name engraving approx. 25–40 mm high.
- Screwed rear panel made of 2 mm stainless steel V2A 1.4301, powder-coated.
- Side cladding and rain hood made of 6 mm aluminium, powder-coated.
- Optional with planted roof made of stainless steel V2A, powder-coated in RAL/DB colour. Includes hose nozzle with hose for concealed water drainage inside the pillar with outlet to the rear.
- The pillar is equipped with internal base plates. This conceals the fixing anchors (not included, see accessories) for screw mounting.

Important information

Water protection

To achieve optimal protection of your mail from water, the mailbox or mailbox system should, where possible, be located under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
