6-unit surface-mounted mailbox system Design BASIC 385A- VA AP - stainless steel V2A, brushed | 300x110x385 mm (WxHxD) - ?? Normal 12 litres | with 6 mailboxes (1x6) | Stainless steel, brushed

Product number 385A-VA-6S

Product description

Slim surface-mounted mailbox system BASIC 385A for 6 households – brushed stainless steel V2A

The BASIC 385A surface-mounted mailbox system for 6 households is a robust wall-mounted solution for multi-family houses, smaller residential developments as well as office and medical premises. The vertically organised S configuration reduces horizontal space requirements and makes particularly efficient use of the available wall height.

The mailbox system is made from high-quality stainless steel V2A in a brushed finish. Mailboxes, cladding and rain hood form a timeless, low-maintenance and robust stainless-steel unit.

Each mailbox measures 300 × 110 × 385 mm (W × H × D) and offers approx. 12 litres of capacity. The 35 × 265 mm mail slot is designed for DIN C4 items in portrait format. The doors open from left to right; each mailbox is supplied with two keys with key number and an interchangeable nameplate located beneath the mail flap.

The advantages of the BASIC 385A surface-mounted system at a glance

Rain hood and side cladding

Rain hood and side panels combine the individual mailboxes into a closed surface-mounted system. The coordinated cladding provides a calm front and a neat finish at the façade.

DIN C4 insertion and 12-litre capacity

The 300 × 110 × 385 mm (W × H × D) mailboxes each offer approx. 12 litres of capacity. The 35 × 265 mm slot also accepts larger DIN C4 items in portrait format.

Quiet insertion and secure allocation

The rubber lip damps the mail flap. Robust locks, two keys with key number and protected interchangeable nameplates ensure clear allocation of the individual mailboxes.

Mounting rail for wall installation

The surface-mounted system is designed for direct façade installation. A mounting rail facilitates installation; fixings with screws and wall plugs are included in the described configuration.

Completely in brushed stainless steel

The V2A design combines a high-quality metal surface with a robust construction for long-lasting surface-mounted mailbox systems. The system is manufactured in Germany by Briefkasten Manufaktur.

Equipment of the BASIC 385A mailbox system

Mailbox system

Number of mailboxes 6 separately lockable compartments
Individual compartment 300 × 110 × 385 mm (W × H × D)
Capacity Approx. 12 litres per mailbox
Material Stainless steel V2A 1.4301, brushed
Finish Stainless steel V2A 1.4301, brushed
Standard DIN EN 13724

Mail and operation

Mail slot 35 × 265 mm, suitable for DIN C4 portrait
Mail flaps With sound-dampening rubber lip
Mail removal From the front
Door opening From left to right
Keys 2 keys with key number per mailbox
Nameplate Interchangeable nameplate beneath the mail flap

Cladding and wall mounting

Side cladding Close-fitting design
Rain hood Solid, matching the system
Type of installation Surface-mounted wall installation
Installation aid Mounting rail
Fixings Screws and wall plugs included; suitability for the on-site wall construction must be checked
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Note on wall mounting

The wall must be flat and sufficiently load-bearing. The supplied screws and wall plugs should only be used if they are suitable for the existing wall construction; for other substrates or external thermal insulation systems, appropriate fixing solutions must be determined on site.

Note on weather protection

Mail is best protected against moisture and dirt only when items are fully inserted and the mail flap is closed. Protruding letters or magazines may prevent the flap from closing completely.

Product properties

Series	BASIC
Number of boxes	with 6 letterboxes
Boxes by volume	Normal > 10 litres
Name labelling	Nameplate
Material	Stainless steel V2A 1.4301
Removal of mail	On the front
