Bicycle stand ACHIM - Stainless steel V2A polished - One-sided wheel adjustment | Stainless steel, brushed | 4-fold | Single-sided wheel adjustment

Product number 670-VA-4FACH

Product description

ACHIM stainless steel bike stand - durable, attractive and functional

The **ACHIM** bicycle stand impresses with its clear design language, precise workmanship and durable material quality. The gently curved brackets give the stand a harmonious, organic appearance that blends discreetly into modern outdoor areas, house entrances and company premises, making the bicycle stand suitable for private, commercial and public applications.

The ACHIM bicycle stand is made entirely from **stainless steel V2A** - either **polished 240 grit** or **powder-coated** in various RAL colours. The material is corrosion-resistant, easy to clean and permanently weatherproof. The careful workmanship in our **German manufactory** creates a product that ideally combines robustness, stability and design quality.

All components of the bike rack are **fully welded** and therefore offer a high level of **theft protection** and exceptional durability - even with intensive use or high mechanical stress. The **adjustment angle of 90°** and the **wheel spacing of 430 mm** ensure convenient and space-saving wheel adjustment. With a **tyre width of up to 60 mm**, the bike stand is suitable for many types of bike - from city bikes to e-bikes. The wheel adjustment can be customised on request.

The **ACHIM bicycle stand** is a high-quality bicycle parking system for demanding environments. Its combination of stainless steel processing, clear design and stable construction makes it the ideal choice for hotels, commercial properties, residential complexes and public areas. With **"Made in Germany" quality**, the ACHIM bicycle stand stands for durability, safety and timeless design - manufactured in true manufacturing quality.

- **Mounting:** optionally for screw mounting or setting in concrete
- **Sizes:** available in 8 variants
- **Manufacture:** German quality production "Made in Germany"

Design & functionality

The ACHIM bicycle stand is not only functional, but also well thought-out in terms of design. The round shapes appear light and modern, while at the same time emphasising the stability of the construction. The consistent stainless steel design provides a visually uniform solution for outdoor facilities that value quality and aesthetics.

Thanks to the solid welded construction, the bike rack retains its shape even under heavy use and offers reliable support. Thanks to the precise surface finish, the stainless steel is easy to clean and retains its high-quality appearance even after years of use.

Sustainability and durability

The use of V2A stainless steel stands for **lasting value**. The material is 100% recyclable and particularly resource-friendly thanks to its durability. With the ACHIM bike rack, you are investing in a durable solution that combines functionality, design and environmental awareness - in line with our corporate philosophy.

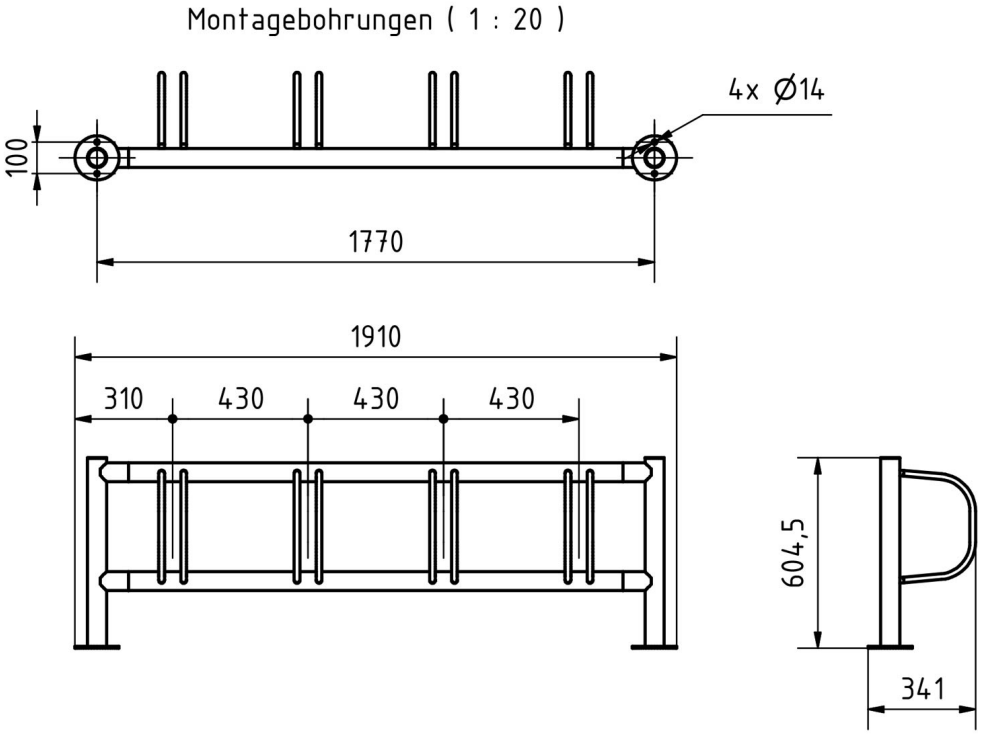

Product properties

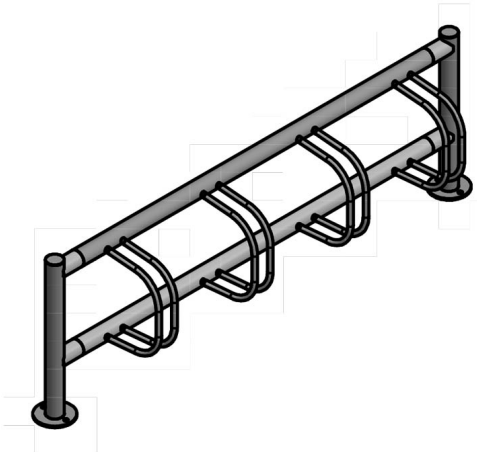

Mounting type	Free-standing
Material	Stainless steel V2A 1.4301
Surface/colour	Brushed

Dimensions

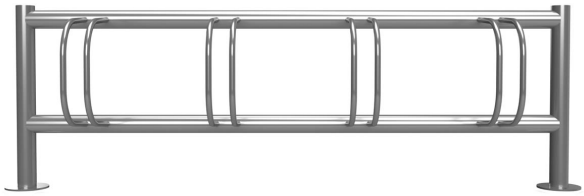

Overall height in mm	605,0
Total width in mm	970.0 | 1400.0 | 1830.0 | 2260.0 (without footplate)
Depth in mm	300.0 (without footplate)
Weight in kg	25,0 - 75,0
Delivery condition	Delivery is assembled
