4-unit freestanding mailbox Design BASIC 385 ST-R with doorbell box - stainless steel - RAL 7016 anthracite grey | BI-Color brushed stainless steel | RAL 7016 anthracite grey | Top | with 4 mailboxes

Product number 385-7016VA-4-SP

Product description

Freestanding 4-compartment mailbox system BASIC 385 for 4 households with bell/intercom module – BI-Colour stainless steel / RAL 7016

For multi-family houses, smaller residential complexes as well as office and medical practice buildings, the freestanding BASIC 385 as a system for 4 households offers a durable and clear entrance solution. Due to independent stand mounting, the mailbox system can be positioned to suit the site and access situation.

The system configuration is tailored to the respective number of households and forms a closed unit with rain hood and side cladding.

The mailbox bodies are made of galvanised steel in RAL 7016 Anthracite grey fine-textured matt. Brushed stainless steel V2A insertion flaps provide a high-quality BI-Colour accent. A close-fitting side cladding with rain hood unites the individual mailboxes into a single enclosed system.

Each compartment has an insertion slot of 35 × 265 mm for DIN C4 items in portrait format. A noise-dampening rubber lip reduces impact noise, while the front access doors open from left to right. Each mailbox is supplied with two keys with key number and a replaceable nameplate below the insertion flap.

The integrated bell/intercom module combines the doorbell function and preparation for an intercom system directly within the mailbox system.

The advantages of the BASIC 385 at a glance

Solid stainless steel stand posts

Round-tube stand posts with approx. 60 mm diameter made of brushed stainless steel V2A 1.4301 form a stable base for the freestanding mailbox system. The robust construction is designed for long-term use at the property entrance.

Mail solution for multiple occupancy units

The system provides 4 separately usable compartments and can be installed independently of a building wall at an easily accessible location on the property.

Large insertion opening compliant with DIN EN 13724

The insertion opening of 35 × 265 mm is designed for DIN C4 items in portrait format. Larger envelopes can also be inserted without folding.

Quiet insertion and comfortable retrieval

A noise-dampening rubber lip reduces the impact of the insertion flaps. Mail retrieval is via front access doors that open from left to right.

Integrated bell/intercom module

The bell/intercom panel is integrated directly into the mailbox system.

Equipment of the BASIC 385 mailbox system

Mailbox system

Design Article-specific system configuration
Number of mailboxes 4 separately usable compartments
Mailbox material Galvanised steel with stainless steel insertion flaps
Finish BI-Colour: RAL 7016 Anthracite grey fine-textured matt / brushed stainless steel V2A
Rain hood / side cladding Galvanised steel, powder-coated in RAL 7016 Anthracite grey fine-textured matt
Manufacture Made in Germany by Briefkasten Manufaktur Lippe

Mail and operation

Insertion opening 35 × 265 mm, suitable for DIN C4 portrait
Insertion flaps With noise-dampening rubber lip
Mail retrieval Front access
Door opening Opens from left to right
Keys 2 keys with key number per mailbox
Nameplate Replaceable nameplate below the insertion flap
Standard Mailboxes compliant with DIN EN 13724

Stand posts and accessories

Stand posts Round tube approx. 60 mm made of brushed stainless steel V2A 1.4301
Mounting options Available either for bolt fixing or for concreting in
Fixings Anchor bolts for bolt fixing are not included; select suitable fixings separately to match the foundation
Bell/intercom module Integrated functional panel
Intercom preparation Perforation with universal adapter for standard flush-fit speakers
Doorbell push-button Round stainless steel doorbell push-buttons matching the product design

Mailbox size and volume

The BASIC 385 is available in different mailbox sizes depending on the product configuration. The standard version 300 × 110 × 385 mm offers approx. 12 litres volume; depending on the variant, 300 × 220 × 385 mm with approx. 25 litres volume is also available.

Mounting by concreting in

For the freestanding system we recommend a suitably dimensioned concrete foundation. When concreting in, the stainless steel stand posts must be aligned plumb and permanently anchored in the foundation. Foundation size and embedment depth must be adapted to ground conditions, system weight and local circumstances.

Bolt fixing to a foundation

For bolt fixing a level and load-bearing concrete foundation is required. Suitable anchor bolts or fixing materials must be selected to match the substrate and the load on the system. For the BASIC-385-ST-R versions, anchor bolts are not part of the standard scope of delivery.

Note on weather protection

Mail items are best protected from moisture and soiling only when fully inserted and the insertion flap is closed. Protruding items can prevent the flap from closing completely. In extreme weather conditions, moisture may enter the mailbox despite compliant construction.

Note on bell and intercom technology

The bell/intercom module is prepared with perforation and a universal adapter for common flush-fit speakers. Two-way intercom systems or built-in speakers are not included in the basic equipment. Planning, connection and commissioning of electrical components should be carried out by a qualified electrician.

Product properties

Material	Steel, galvanised, Stainless steel V2A 1.4301
Series	BASIC
Number of bell push buttons	4 buttons
Functions	Light button, Intercom
Functional box prepared for manufacturer	GIRA, Busch Jaeger, Siedle, STR Elektronik, ELCOM, TCS, Ritto, ALGO, Telegärtner, Auerswald, Legrand Bticino, Comelit
Boxes by volume	Normal > 10 litres
Number of boxes	with 4 letterboxes
Name labelling	Nameplate
Mounting type	Free-standing
Surface/colour	RAL 7016 anthracite grey, Brushed
Removal of mail	On the front
