Product number 686

Product description

Stainless steel care oil spray 400ml - cleans - cares - protects

- Contains oils according to DAB-10 and the European Pharmacopoeia.
- Clear, clean care oil.
- Dissolves dirt, protects and gives a long-lasting shine. Removes fingerprints.
- Also suitable for the food industry, but avoid direct contact with food.

Application tips

We use stainless steel for our products, the surface of which can be glossy, matt or polished. This steel is characterised by its resistance to water, water vapour, humidity, food acids and weak organic and inorganic acids when used and cared for as intended.

After installing the letterbox, an initial cleaning should be carried out to remove any soiling caused by storage, transport or construction or installation residues. Protective layers of paper, film or adhesive residue must be completely removed after assembly, as they can lead to corrosion. The letterbox should then be maintained approx. every 3 - 4 weeks.

Please note: Under no circumstances should steel wool, steel brushes or similar be used when cleaning stainless steel, as such tools damage the protective surface and allow the formation of extraneous rust through abrasion. Corrosion caused by flash rust is excluded from the warranty.
