Product description

Module with add-on socket - JUNG ES1521KL - SCHUKO® 16 A 250 V with stainless steel hinged cover

The modular socket module is the appropriate addition for modular socket columns and enables flexible, demand-oriented configuration of the power distribution. It has been specially designed for use in ORDO socket columns.

The socket module is designed for easy installation. It is inserted into the intended module holder of the socket column and securely fixed there. The well-thought-out construction allows quick replacement of individual modules, reducing downtime and enabling efficient extensions.
