Socket/power column ORDO for freestanding installation - CEE - Schuko - 811 mm - 6-way - single-column - RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | 6-unit single-column

Product number 376-6-7016

Product description

Modular power socket column ORDO for freestanding installation

The modular power socket column **ORDO** is a functional and durable solution for secure outdoor power supply. It is suitable for use in gardens, on terraces, at campsites, in residential complexes as well as in commercial or publicly used areas. With its clear design language and robust construction, the socket column can be used in a variety of ways.

Manufactured from **galvanised steel** and high-quality **powder-coated**, the socket column offers lasting protection against corrosion and weathering. An integrated rain canopy additionally protects the sockets from direct exposure to rain. Production takes place at Briefkasten Manufaktur in Germany and stands for precise craftsmanship and quality “Made in Germany”.

The ORDO socket column is available in **two installation heights** and can therefore be optimally adapted to the respective area of use. The modular design allows individual configuration as well as later adaptation or expansion of the modules.

- Socket column made of galvanised steel, powder-coated in RAL 7016 anthracite grey, fine-textured matt.
- German quality manufacture at Briefkasten Manufaktur (“Made in Germany”).
- Integrated rain canopy for protection against the weather.
- Modular design for individual configuration, e.g. with CEE or Schuko sockets or prepared modules for your own switch systems. Further additions such as switches, push-buttons, key switches, communication connectors, industrial sockets, motion detectors, water connections, lighting, etc. are available on request.
- Socket modules protected at the rear by a high-quality plastic housing.
- Simple and well thought-out installation: secure the column to the ground, wire it, slide in the front panel and screw it in.

Important information

Briefkasten Manufaktur Lippe GmbH
Werler Straße 60
32105 Bad Salzuflen

Please note that the use of the supplied sockets requires professional installation by a qualified electrician.

Note for camping, caravan and motorhome pitches

Versions with more than 4 socket modules are not intended for use as power supply on camping, caravan or motorhome pitches. Special requirements apply to socket type, protective devices, residual-current protection and maximum grouping for these applications.

The specific planning, installation and testing must be carried out by a qualified electrician in accordance with the national regulations applicable at the place of installation. For Germany, the relevant DIN VDE regulations must in particular be observed.

Product properties

Material	Steel, galvanised, Stainless steel V2A 1.4301
Series	ORDO
Mounting type	Free-standing
Surface/colour	RAL 7016 anthracite grey
