Socket/power column ORDO for floor mounting - CEE - Schuko - 811 mm - 12-socket - 2-column - RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | 12-unit, 2-column

Product number 376-12-2-7016

Product description

Modular socket column ORDO 12-module, 2-column, 811 mm – RAL 7016 Anthracite grey

The modular socket column **ORDO** with twelve module positions was developed for extensive and versatile power supply requirements outdoors. The **two-column version** with a height of **811 mm** provides ample space for a clear arrangement of numerous sockets, switches and functional modules.

The power column is particularly suitable for larger residential complexes, commercial properties, workshops, company premises and publicly used outdoor areas. By dividing the unit into two columns, different supply areas can be clearly separated or various functions can be combined compactly in a single column.

The socket column is manufactured from **galvanised steel** and powder-coated in **RAL 7016 Anthracite grey, fine-textured matt**. The robust surface provides long-term protection against corrosion and weathering. Two integrated rain hoods further reduce the direct impact of precipitation on the modules beneath.

- Two-column socket column with a total of twelve module positions.
- Height of 811 mm.
- Suitable for extensive and versatile module configurations.
- Manufactured from galvanised steel.
- Powder-coated in RAL 7016 Anthracite grey, fine-textured matt.
- Integrated rain hoods for weather protection.
- Modular design for individual equipment, adaptation and expansion.
- Can be equipped, for example, with CEE or Schuko sockets and prepared modules for your own switch programmes.
- Additional fittings such as switches, push-buttons, key switches, communication connections, high-power sockets, motion detectors, lighting or water connections are available on request.
- Socket modules protected at the rear by high-quality plastic enclosures.
- Well thought-out installation: fix the column to the floor, wire it, slide in the front panels and secure with screws.
- German quality manufacturing by Briefkasten Manufaktur.

Important information

Installation, electrical connection and testing of the sockets and components used must be carried out by a qualified electrician.

Note for campsites, caravan and motorhome pitches

This version has more than four module positions and is not intended as a power supply for campsites, caravan or motorhome pitches. Special requirements for socket type, circuit protection, residual-current protection and maximum grouping apply to these applications.

The detailed planning, installation and testing must be carried out by a qualified electrician in accordance with the national regulations applicable at the place of use. In Germany, the relevant DIN VDE regulations must in particular be observed.

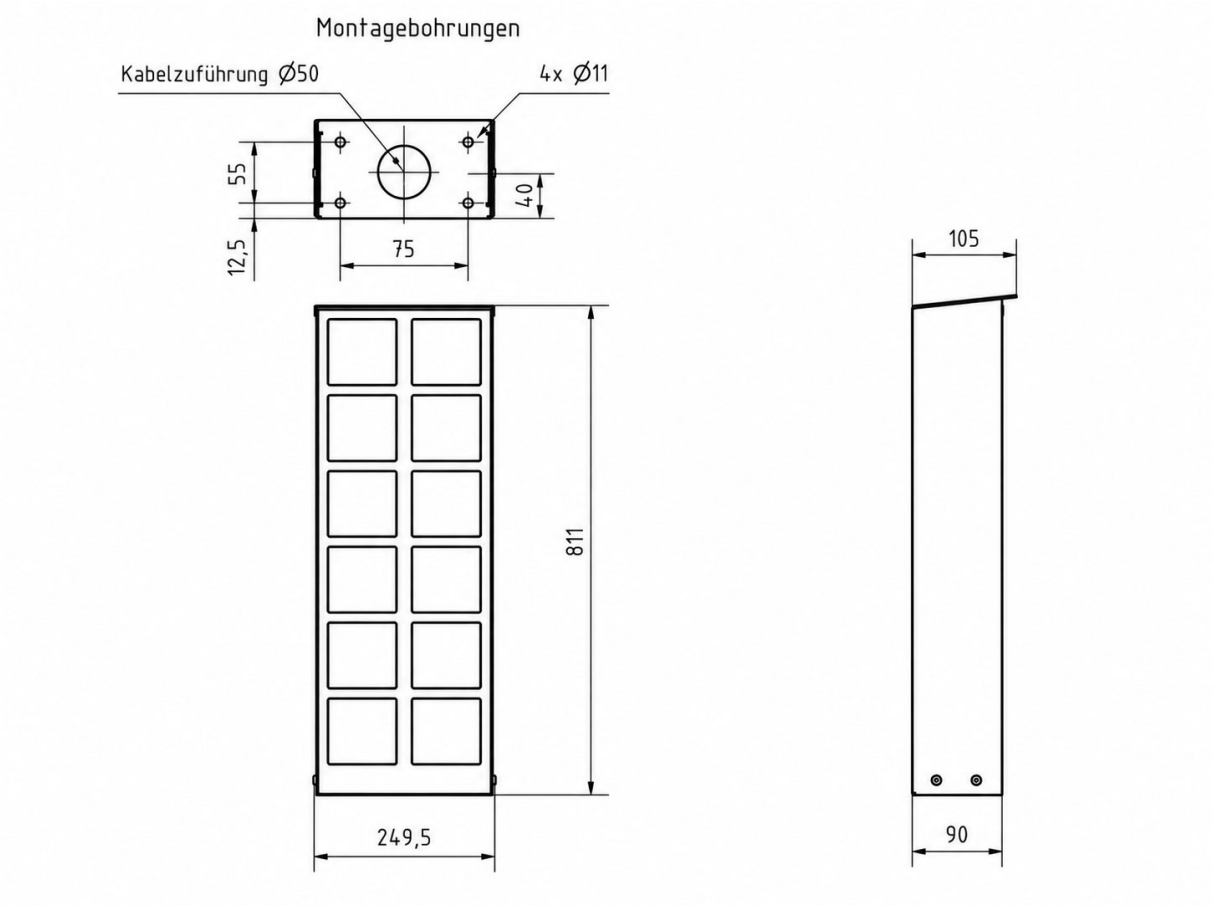

Product properties

Material	Steel, galvanised, Stainless steel V2A 1.4301
Series	ORDO
Mounting type	Free-standing
Surface/colour	RAL 7016 anthracite grey

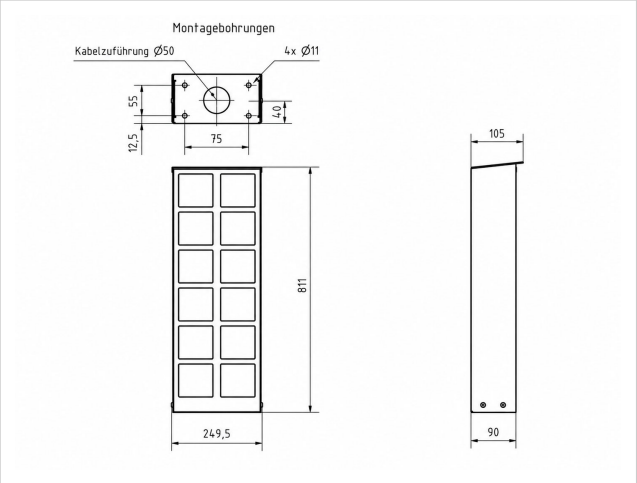

Dimensions

Width in mm	249.5
Height in mm	811
Total width in mm	249.5
Depth in mm	90 | 105
Weight in kg	10
Delivery condition	Delivered fully assembled.
