Design flush-mounted letterbox GRIMM - polished stainless steel - GIRA System 106 - 3-gang prepared left | Left | Prepared for Gira System 106 | Stainless steel, brushed | Flush-mounted

Product number 562-UP-SPL-1-VA-GI106V

Product description

Design Mailbox GRIMM® – A Masterpiece of Mailbox Manufacture

The Design Flush-Mounted Mailbox GRIMM combines modern design with top-quality craftsmanship – ideal for discerning builders and architects seeking an elegant solution for integrating the Gira System 106. Manufactured from high-quality stainless steel and fully “Made in Germany” by the Mailbox Manufacture Lippe, this model stands for durability, functionality, and stylish aesthetics. The ground stainless steel front panel made of 2 mm V2A (1.4301) impresses with its timeless appearance and high corrosion resistance. The flush design allows for seamless integration of up to three GIRA 106 system modules (not included) through a well-thought-out holding system. An optional surface-mounted housing (5503910) is required for the installation of the Gira components.

The mailbox GRIMM® is not only a visual highlight but also excels in functionality and quality. Thanks to the innovative push-key lock, the mailbox can be easily and comfortably operated with one hand. Open the door with a push and close it without the use of a key, while the lock is optimally protected against weather influences. Additionally, the mailbox features an intelligent retrieval system: the door opens from top to bottom, ensuring that the mail remains securely inside and cannot fall back out. The mail drop is also comfortably accessible from the front, with high-quality axle dampers ensuring a gentle closing of the mail slot. What makes the GRIMM particularly unique is the double box system: the installation box can be set up during the rough construction phase, while the front panel is mounted only after construction work is completed – allowing for maximum future flexibility and protection from dirt and dust during the construction phase. The installation box is made of stainless steel 1.4016 and features pre-punched cable entries on all sides to facilitate easy electrical installation.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large letters in C4 format that can be inserted without creasing. The mailbox GRIMM® impresses with its lasting quality, timeless design, and thoughtful functionality.

- High-quality mailbox made entirely of stainless steel for flush-mounted installation.
- Front panel made of 2 mm stainless steel V2A 1.4301, ground finish.
- Quality manufacturing – Made in Germany by Mailbox Manufacture Lippe.
- The Gira System 106 can be seamlessly integrated into the flush design. Preparation is provided for 3 pieces of GIRA 106 system modules. The modules can be integrated flush using the easy holding system (surface-mounted housing 5503910 required!). WITHOUT GIRA system components!
- Innovative push-key lock including 2 keys with key number, comfortable locking without a key, optimally protected against weather.
- The retrieval door with opening limiter opens from top to bottom to prevent the mail from falling out.
- Front mail drop with high-quality axle dampers for very quiet mail insertion.
- DIN/EN 13724 compliant mailbox, mail drop size (3.5 cm x 32.5 cm) for C4 landscape – large letters remain intact. Additional mail retrieval protection made of stainless steel integrated.
- Optimal weather protection due to the recessed front panel.
- Double box system: Ideal for flush-mounted installation. The panel can be conveniently installed after construction work is complete.
- Installation box made of stainless steel 1.4016 (non-rusting, magnetic stainless steel) with pre-punched cable entries on all sides.

Important Information:

To achieve optimal water protection for your mail, the mailbox or mailbox system should, if possible, be located under a canopy.

Mail is only protected from water when it is completely placed inside the mailbox and the mail drop flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This unit is protected against water ingress according to DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Series	GRIMM
Functions	Camera, Intercom, Fingerprint, Keypad
Functional box prepared for manufacturer	GIRA
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
Removal of mail	On the front
Number of boxes	with 1 letterbox
Surface/colour	Brushed
Boxes by volume	Large > 16 litres
Mounting type	Flush-mounted
