Surface-mounted mailbox GOETHE AP with newspaper compartment - Design Elegance 2 - RAL colour of your choice | with newspaper compartment | 100mm depth

Product number 215-AP-E2-ZF-1-100

Product description

Surface-mounted letterbox GOETHE AP with newspaper compartment and stainless steel application - Design Elegance 2 - RAL colour of your choice

The modern surface-mounted letterbox GOETHE with interchangeable stainless steel application is ideal for an upscale entrance area. The clean-lined design without a visible lock gives this letterbox a particularly elegant appearance. The modern look with a stainless steel fascia complements many new-generation front door models perfectly.

The dimensions of the single box allow a capacity of approx. 16 or 32 litres; the large slot ensures that DIN C4 envelopes and magazines, or mail after several days' absence, do not become creased. The innovative push-key lock is concealed inside the letterbox. The key is simply inserted into the existing opening (no turning required) and the door opens. The position of the lock is designed so that the retrieval door prevents your mail from falling out. The internal mail is optimally protected from the weather by the water-drip edge. The insertion flap is fitted with high-quality axle dampers, ensuring quiet closing and preventing annoying rattling caused by weather conditions.

The newspaper compartment is particularly convenient, as the newspaper can be inserted completely. This protects the newspaper from the weather and allows it to be placed in without creasing. To remove it, the flap is simply opened upwards and the newspaper is conveniently taken out.

The surface-mounted letterbox systems in the GOETHE collection are characterised by the consistent use of stainless steel and aluminium. The result is very high durability and sustainability. The design has been developed by our own engineers with a focus on high flexibility and modularity, easy replacement-part installation and straightforward self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the construction method, self-assembly is straightforward.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- High-quality surface-mounted letterbox made from stainless steel and aluminium.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Interchangeable applications made of stainless steel V2A 1.4301, 240-grit brushed.
- Letterbox (BH 400x400mm) made from stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Mail insertion and retrieval are from the front. Insertion flap with high-quality axle dampers for very quiet mail insertion.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape; large letters fit without folding.
- The retrieval door opens from top to bottom, preventing your mail from falling out.
- Optional name engraving approx. 10–25 mm high.
- Optional house number engraving approx. 50–80 mm high.
- Newspaper compartment (BH 400x200mm) made from stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL colour of your choice with stainless steel application and laser inscription "ZEITUNG" (font ARIAL; if name/house number is selected, these will use your chosen font).
- Newspaper compartment opens from bottom to top.
- Optimal weather protection thanks to water-drip edges and a rain canopy made from 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Side cladding made from 3 mm aluminium AlMg3 W19, powder-coated in RAL colour of your choice.
- Including mounting rail for wall installation.

Important information:

To achieve optimal protection of your mail from water, the letterbox or letterbox system should, where possible, be located under an overhang.

Mail is only protected from water if it is fully placed inside the box and the insertion flap is closed. Partially inserted mail allows moisture and dirt to enter the letterbox. This system is protected against water ingress in accordance with DIN EN 13724. Water ingress is not a reason for complaint.
