LESSING free-standing letterbox with newspaper compartment - RAL 7016 anthracite grey | RAL 7016 Anthracite grey, fine texture, matt | with newspaper compartment

Product number 306-C-7016-STLZF

Product description

LESSING free-standing letterbox with newspaper compartment - RAL 7016 anthracite grey

The LESSING free-standing letterbox with newspaper compartment combines elegant, minimalist design with functional excellence. Equipped with an invisible lock and stylish labelling option, it blends seamlessly into any modern living environment. The use of galvanised, powder-coated steel guarantees long-lasting quality and durability.

With a capacity of approx. 19 litres and a top-access slot, the LESSING ensures that your mail remains crease-free. The flap is equipped with high-quality axle dampers that allow it to close gently. The simple self-assembly and optional personalisation make it the ideal letterbox for discerning users who value design, quality and convenience.

A special highlight of this model is the integrated, closed newspaper compartment or storage compartment. This innovative feature is specially designed for receiving newspapers and provides optimum protection from the weather. The compartment, which opens from top to bottom, provides a secure storage location that keeps your newspapers dry and intact, thus ideally complementing the functionality of the letterbox.

Thanks to the design, self-assembly is straightforward.

- High-quality letterbox column made of galvanised steel, powder-coated in RAL 7016 anthracite grey fine structure matt.
- The door can be opened from top to bottom.
- Insertion from above, insertion flap with high-quality axle dampers for silent closing.
- Includes 2 keys with key number.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 33.5 cm) for C4 landscape, even large letters fit in here without creasing.
- Generous capacity of approx. 19 litres.
- Closed newspaper compartment or storage compartment with door that opens from top to bottom with stainless steel panel and "Newspaper" pictogram.
- Customised UV and weather-resistant laser engraving.
- Letterbox pillar with base plate for screw mounting.

Important information:

To achieve optimum water protection for your mail, the letterbox or letterbox system should be located under a canopy if possible.

The mail is only protected from water if it is completely placed in the box and the flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against the ingress of water in accordance with DIN EN 13724. Water ingress is not a reason for complaint.

Product properties

Material	Steel, galvanised
