Designer freestanding mailbox GOETHE LIB with newspaper compartment - LED design element - RAL colour of your choice | with newspaper compartment | with 1 mailbox

Product number 215-LIB-1-ZF

Product description

Design freestanding letterbox GOETHE® LIB with newspaper compartment - LED design element - RAL of choice

High-quality manufactured freestanding letterbox with newspaper compartment and elegant stainless steel rectangular tube stand including LED design element. The modern letterbox GOETHE® is ideal for sophisticated entrance areas. The linear design without a visible lock gives this letterbox a particularly elegant appearance.

The dimensions of the single box provide a capacity of approx. 16 litres; the large aperture ensures that even DIN C4 envelopes and magazines, or mail after several days' absence, are not creased. The innovative push-key lock is concealed invisibly inside the letterbox. The key is simply inserted into the existing opening (no turning required) and the door opens. The placement of the lock is designed so that the collection door prevents the post from falling out towards you. The water runoff edge optimally protects the internal mail from the elements. The insertion flap is fitted with high-quality axle dampers, guaranteeing quiet closing and preventing annoying rattling caused by weather conditions.

The letterbox systems of the GOETHE® collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, simple spare-part assembly and uncomplicated self-assembly. Spare parts for all GOETHE® systems are available directly in our shop.

Thanks to the design, self-assembly is straightforward.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- Freestanding letterbox with rectangular tube stand element and stainless steel letterbox.
- Quality manufacture - Made in Germany by Briefkasten Manufaktur Lippe.
- Flat LED lighting unit as a design element. LED 3000 K 395 x 100 mm x 5 mm, IP65, 2-metre cable, 24 volts, 10 watts, frosted acrylic edges including LED power supply.
- Letterbox (BH 400x400 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL of choice.
- Innovative push-key lock with 2 keys.
- Mail insertion and retrieval are from the front. Insertion flap with high-quality axle dampers for very quiet insertion of mail.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape; large letters also fit without bending.
- Collection door opens from top to bottom, so the post cannot fall out towards you.
- Newspaper compartment (BH 400x200 mm) made of stainless steel 1.4016 (non-rusting magnetic stainless steel), powder-coated in RAL of choice with stainless steel laser inscription "ZEITUNG" (font ARIAL; if name/house number is chosen, then in the font you have selected).
- Newspaper compartment opens from bottom to top.
- Optional name inscription approx. 15-20 mm high.
- Optional house number inscription approx. 70-80 mm high.
- Optimal protection against rain thanks to rain runoff edges.
- The stand column consists of 2 mm stainless steel rectangular tube, powder-coated in RAL colour with a 6 mm base plate for screw mounting.

Important information:

To achieve optimal water protection for your mail, the letterbox or letterbox system should, where possible, be positioned under a canopy.

Mail is only protected from water if it is placed completely inside the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not grounds for complaint.
