Flush-mounted nameplate for STORM mailbox - 2-piece - RAL 7016 anthracite grey

Product number 789-E-2T-7016

Product description

Flush-mounted nameplate for STORM mailboxes in RAL 7016

The flush-mounted nameplate was specially developed for mailboxes and mailbox systems of the STORM series. It replaces the standard plastic nameplate and gives the mailbox an especially clear, high-quality and modern appearance.

The two-part nameplate consists of a self-adhesive backing plate and a screw-fastened, replaceable nameplate. The backing plate is glued into the designated opening from the rear. The visible nameplate can be easily removed and replaced in the event of a tenant or name change without the backing plate needing to be removed.

This version is made from 2 mm thick stainless steel V2A (1.4301) and is powder-coated in RAL 7016 Anthracite Grey to match the STORM mailbox series. The nameplate can optionally be supplied with custom laser engraving. The font size is automatically adjusted to the available area and the number of characters.

- Flush-mounted nameplate for mailboxes and mailbox systems of the STORM series.
- Made from 2 mm thick stainless steel V2A (1.4301).
- Powder-coated in RAL 7016 Anthracite Grey.
