Product number 562-STLPK-SPR-SF-DB

Product description

Design Mailbox Column GRIMM with DoorBird Video Intercom – The Premium Solution for Mail & Packages

The Design Mailbox Column GRIMM combines modern design, high-quality craftsmanship, and maximum flexibility. Made from **2 mm stainless steel V2A 1.4301** and powder-coated in a **custom colour**, the column impresses with its timeless elegance and extreme durability. Thanks to the **fully welded construction**, there are no visible screws or rivets, creating a particularly sophisticated appearance. The **mailbox and parcel box module** is also installed with concealed screws, providing an exquisite look at the highest level.

Particularly practical: The modules can be replaced even after many years. This ensures your mailbox column remains flexible and future-proof at all times. This model is manufactured by the **Mailbox Manufacture in Bad Salzuflen** – quality work "Made in Germany".

A special feature of the system is the proven mechanical parcel lock with T-handle, which allows for delivery independent of the delivery person: The delivery person places the package in the openly accessible compartment and locks it with a simple click. The compartment remains locked until the authorised user opens it with their key. A clever solution – without electronics, without an app, but with maximum security. Whether DHL, UPS, DPD, GLS, Hermes, or TNT – any parcel service can use the parcel box. This way, you receive your shipments safely and conveniently at any time, even when you are not home.

At the heart of this system is the DoorBird IP Video Door Station D2100E or D1100E, which integrates perfectly into modern smart home solutions. It offers live video streaming, intercom function, and mobile control via the DoorBird app. Whether at home or on the go – with your smartphone, you can see and speak to visitors at your door at any time. Classic components such as doorbells, electric door openers, or gate drives can be easily integrated and controlled through the system.

The GRIMM mailbox is not only a visual highlight but also excels in functionality and quality. Thanks to the innovative push-key lock, the mailbox can be operated simply and comfortably with one hand. Open the door with a push and close it without using a key. The lock is optimally protected against weather influences. Additionally, the mailbox features an intelligent retrieval system: the door opens from top to bottom, ensuring that mail remains securely inside and cannot fall out. The mail can also be comfortably inserted from the front, with high-quality axle dampers ensuring a quiet closing of the insertion flap.

Thanks to the DIN/EN 13724 standard, the GRIMM is ideal for large C4 format letters that can be inserted without folds. The GRIMM mailbox impresses with its durable quality, timeless design, and well-thought-out functionality.

Mailbox Module with Function Box – Comfort and Functionality

- Made from 2 mm stainless steel V2A 1.4301, powder-coated in your choice of colour.
- Integrated DoorBird IP Video Door Station – modern door communication using your mobile phone. Compatible with many smart home systems & existing building technology.
- Innovative push-key lock including 2 keys with key number, comfortable locking without a key, optimally protected against weather conditions.
- The retrieval door with opening limiter opens from top to bottom to prevent mail from falling out.
- Front insertion with high-quality axle dampers for very quiet mail insertion.
- DIN/EN 13724 compliant mailbox, insertion size (3.5 cm x 32.5 cm) for C4 landscape – even large letters remain intact. Additional retrieval protection made of stainless steel integrated.
- Optimal weather protection due to recessed cover.
- Double box system: The cover can be easily installed after construction work is completed and can be replaced at any time.

Parcel Box Module – Secure and Spacious

- Made from 2 mm stainless steel V2A 1.4301, powder-coated in your choice of colour.
- Parcel volume: 130 litres – ideal for large shipments.
- Maximum parcel dimensions: 505 × 655 × 340 mm (W × H × D).
- Front parcel retrieval door 510 × 660 mm, opens from left to right.
- Door equipped with durable stainless steel hinges.
- Innovative T-handle parcel lock with latch closure.
- Including 2 keys with key number.
- Pictogram "PACKAGE" as stainless steel laser engraving.

Construction & Details

- Fully welded stand column made from 2 mm stainless steel V2A 1.4301, powder-coated in your choice of colour.
- Height: 1.70 m.
- Invisible cable entry possible through the body.
- Base plate made of stainless steel (10 mm thick), covered by an elegant cover plate.
- No visible screws or rivets – seamless design.
- Modules are replaceable even after years – maximum future security.

Important Information:

To achieve optimal water protection for your mail, the mailbox or mailbox system should ideally be located under a canopy.

Mail is only protected from water if it is completely contained in the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not grounds for complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GRIMM
