Product number 215-UP-1-SPS-2N-1FACH-R

Product description

Design flush-mounted mailbox GOETHE UP, side-mounted with 2N Verso - prepared for 2N Solo - RAL colour of your choice

High-quality flush-mounted mailbox with lateral integration of the models 2N IP VERSO, 2N IP SOLO and 2N LTE VERSO in a flush-mounted design. The modern GOETHE mailbox is ideal for a sophisticated entrance area. The straight-lined shape without a visible lock gives this mailbox an especially elegant appearance. The 2N video intercom can be seamlessly integrated into the flush-mounted design and replaced at any time.

The dimensions of the individual box provide a capacity of approx. 16 litres; the large slot ensures that even DIN C4 envelopes and magazines — or post after several days' absence — are not creased. The innovative Push-Key lock is hidden invisibly inside the mailbox. The key is simply inserted into the existing opening (no turning required) and the door opens. With the arrangement of the lock, this mailbox is designed so that the retrieval door prevents mail from falling out towards you. Thanks to the water run-off edge, the mail inside is optimally protected from the weather. The inlet flap is equipped with high-quality hinge dampers, ensuring a quiet closing and preventing annoying rattling due to weather influences.

The mailbox systems of the GOETHE® collection are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a view to high flexibility and modularity, easy spare-part assembly and straightforward self-installation. Spare parts for all GOETHE® systems are available directly in our shop.

Thanks to the construction design, self-installation is uncomplicated.

Protected utility model according to DPMA file number DE: 20 2021 101 679.5

- Flush-mounted mailbox entirely made of stainless steel.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Mailbox (BH 400x400 mm) made from stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in a RAL colour of your choice.
- Innovative Push-Key lock with 2 keys.
- Mail insertion and retrieval are from the front. Inlet flap with high-quality hinge dampers for very quiet mail insertion.
- The mailbox complies with DIN/EN 13724. Slot size (3.5 cm x 36.0 cm) for C4 in landscape orientation — large letters fit in here without bending.
- Retrieval door opens from top to bottom, preventing mail from falling out towards you.
- Function box (BH 200x400 mm) made from stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in a RAL colour of your choice.
- Optional with house number and name inscription, laser-engraved.
- Plaster cover frame made from stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- **The preparation is intended for 1–3 2N modules. WITHOUT 2N system components!**

Important information

Camera or intercom preparation

The intercom systems must be connected by a qualified electrician. Please contact the electrician of your choice for planning, installation and commissioning.

Water protection

For optimal protection of your mail from water, the mailbox or mailbox system should, where possible, be located under a canopy.

Mail items are only protected from water when they are completely deposited inside the box and the inlet flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the mailbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not grounds for a complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
