Product number 215-UP-1-SP-ZF-KSGI106

Product description

Design recessed letterbox GOETHE UP with newspaper compartment - RAL colour of your choice - GIRA System 106 - VIDEO complete set

High-quality recessed letterbox with newspaper compartment and seamlessly integrated GIRA System 106 in a flush-mounted design. The modern GOETHE letterbox is ideal for an upscale entrance area. The clean-lined shape without a visible lock gives this letterbox a particularly elegant appearance. 3 GIRA System modules are included, so the letterbox can be used immediately. The matching GIRA indoor station and the control unit to complete this letterbox are included. The modules can be exchanged at any time afterwards via the simple mounting system.

The dimensions of the single box provide a capacity of approx. 16 litres; the large aperture ensures that DIN-C4 envelopes and magazines, or post accumulated during an absence of several days, remain uncreased. The innovative push-key lock is concealed invisibly inside the letterbox. The key is simply inserted into the existing opening (no turning required) and the door opens. With the position of the lock, this letterbox is designed so that the access door prevents your mail from falling out. Thanks to the water drainage edge, the internal mail is optimally protected from the weather. The insertion flap is fitted with high-quality hinge dampers to ensure very quiet closing and to prevent annoying rattling caused by weather conditions.

The GOETHE letterbox systems are characterised by the consistent use of stainless steel. The result is very high durability and sustainability. The construction has been developed by our own engineers with a focus on high flexibility and modularity, easy spare-part installation and uncomplicated self-assembly. Spare parts for all GOETHE systems are available directly in our shop.

Thanks to the design, self-assembly is straightforward.

Registered utility model according to DPMA reference DE: 20 2021 101 679.5

- Recessed letterbox made entirely of stainless steel.
- Quality manufacturing - Made in Germany by Briefkasten Manufaktur Lippe.
- Letterbox (W x H 400 x 400 mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in RAL colour of your choice.
- Innovative push-key lock with 2 keys.
- Mail insertion and retrieval are from the front. Insertion flap with high-quality hinge dampers for very quiet insertion of mail.
- The letterbox complies with DIN/EN 13724. Insertion size (3.5 cm x 36.0 cm) for C4 landscape; large envelopes fit without being folded.
- The access door opens from top to bottom. This prevents your mail from falling out.
- Newspaper compartment (W x H 400 x 200 mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in RAL colour of your choice with stainless steel laser engraving "NEWSPAPER" (font ARIAL; if name/house number is used, it will be in your chosen font).
- The newspaper compartment opens from bottom to top.
- Function box (W x H 400 x 200 mm) made of stainless steel 1.4016 (corrosion-resistant magnetic stainless steel), powder-coated in RAL colour of your choice.
- Nameplate made of stainless steel, powder-coated in RAL colour. Your name and/or a bell symbol can optionally be laser-engraved on the nameplate.
- Optionally with house number, laser-engraved (a name inscription can also be stored here).
- Plaster cover frame made from 2 mm stainless steel angle profile 25 x 58 mm, powder-coated in RAL colour.
- Incl. GIRA indoor station & control unit included, System 106 door-station module, info module & camera module installed.

GIRA

Camera module GIRA System 106 - 5561 000, installed without cabling

- Behind the replaceable black glass panel is a high-quality camera with high light sensitivity. Thanks to a field of view of 100°, the user always has an overview of what is happening in front of their front door.

Info module GIRA System 106 - 5560 920, installed

- For house numbers to be prominently displayed.

Door-station module GIRA System 106 - 5565 920, installed without cabling

- Compact voice module with integrated call button for communication between inside and outside.
- A high-quality microphone and a weatherproof speaker ensure good intelligibility.
- Power supply via 2-wire bus. Additional connection for central locking (ZV) (e.g. required from the 3rd camera module).
- All other System 106 modules (except the voice module) are powered via the door-station module.

Indoor station GIRA Video AP 7 1209xx, included

- Video indoor station with a 17.78 cm (7") TFT colour display and comfortable hands-free function for surface mounting or wall mounting with a flush-mounted device box or cavity wall box. With the optional stand (see Accessories) also suitable for placement on furniture. A 32 GB SD memory card is included for internal image storage. Full-surface glass front with touch functionality and tactile feedback.

Video control unit REG GIRA 128800, included

- Control unit for powering the audio and video components of the GIRA door communication bus.
- Supplies the polarity-proof and short-circuit-resistant 2-wire bus when video components such as colour camera and TFT colour display are used.
- Up to 2 door stations with colour camera and 28 indoor stations with TFT colour display can be supplied via the video control unit.
- In total, up to 15 colour cameras can be controlled by the video control unit (5 video door stations and 10 TKS camera gateways), of which two door stations with colour camera can be powered by the video control unit. The remaining colour cameras must each be operated with their own power supply for door communication.
- Self-resetting electronic short-circuit and overload detection of the operating voltages and the bus connection.
- Buttons for system and door-opener programming.
- LED status indicators for operation, overload, system programming and door-opener programming.
- AC 12 V output for powering a standard door opener.
- Relay output for switching a door opener with its own power supply.
- Door opener switching time continuously adjustable from 1 to 10 s.

Important information

Preparation for camera or intercom

The intercom systems must be connected by an electrician. Please contact a qualified electrician of your choice for planning, installation and commissioning.

Water protection

To ensure optimal water protection for your mail, the letterbox or letterbox system should, where possible, be located under a canopy.

Mail is only protected from water if it is completely placed inside the box and the insertion flap is closed. Mail that is not fully inserted allows moisture and dirt to enter the letterbox. This system is protected against water ingress according to DIN EN 13724. Water ingress is not a valid reason for a complaint.

Product properties

Surface/colour	RAL 9005 deep black, RAL 3004 crimson red, DB 703 iron mica, RAL 7016 anthracite grey, RAL of your choice (according to colour table), RAL 9007 grey aluminium, RAL 9016 traffic white
Series	GOETHE
Connection technology	2-wire
Number of bell push buttons	1 button
Functions	Newspaper compartment, Camera, Intercom
Functional box prepared for manufacturer	GIRA
Material	Stainless steel V2A 1.4301, Stainless steel 1.4016 (non-rusting magnetic stainless steel)
House number	House number as laser engraving
Name labelling	Laser-engraved
Removal of mail	On the front
Number of boxes	with 1 letterbox
Boxes by volume	Large > 16 litres
Mounting type	Flush-mounted
