BASIC column with 5 letterboxes, parcel box and LED lighting – choice of RAL colour

Product number BML3D-SQANDNK1BR

Product description

Letterbox system with parcel reception and LED lighting – thoughtful design for your entrance

The BASIC Horizontal system from Briefkasten Manufaktur welcomes you and your visitors with a clean, uncluttered design. Its modular construction brings your chosen functions together in a clearly arranged solution that can be tailored to your everyday needs. The BASIC series offers letterboxes, accessory boxes and function boxes that can be combined in various ways for a coordinated entrance area. The system is designed for column mounting and provides 5 letterboxes for daily post. An integrated parcel box accommodates parcel deliveries.

The system is finished in your choice of RAL colour and has overall dimensions of W 383 × H 1472 × D 430 mm.

Select “Configure now” to open this exact configuration in the 3D configurator. You can then customise the system further and place your order.

Individually configurable

Design your letterbox system to suit your home: select “Configure now” to adapt this configuration to your preferences.

- Support posts in a suitable length: choose from the post lengths available for your installation. You can change the length shown.
- Box finish: customise the colour in the 3D configurator using the colours available for this version.
- Personalised lettering: add your own names, house numbers or text to the designated areas. Any lettering shown is an example and can be replaced.
- Lettering style: choose from the available fonts and adjust the appearance in the configurator.
- Backlit lettering can be configured on the designated areas of this system.
- Equipment: add or change compatible components from the selection available for the system.

When you make changes, the dimensions and price are recalculated in the 3D configurator to reflect your selection.

Robust cladding and thoughtful weather protection

The rain canopy made from V2A 1.4301 stainless steel complements the built-in weather protection: it shields the top and helps keep rain away from the front.

The side cladding made from V2A 1.4301 stainless steel protects the sides and gives the system a robust, visually enclosed finish.

Additional space for parcels, newspapers and more

As a parcel box, this compartment adds parcel reception to your letterbox system, even when you are not at home. The selected BASIC series parcel lock with T-handle allows deliveries without giving the courier a key. You use your key to release the compartment for a single delivery. The courier opens the released compartment, places the parcel inside, closes the door and pushes in the lock to secure it. To collect your parcel, open the compartment with your key, then release it again for the next delivery. Until then, it is not available for further keyless deliveries. The external box dimensions are 370 × 550 × 385 mm (W × H × D). The clear door opening and usable internal dimensions determine which parcel sizes will fit; the external dimensions do not indicate the maximum parcel size. Please check the parcel size against the compartment's internal dimensions in advance.

Materials and workmanship

Base material: V2A 1.4301 stainless steel. V2A stainless steel provides a corrosion-resistant, durable foundation for your entrance area.

The powder-coated surface is finished in your choice of RAL colour. Select your preferred colour in the 3D configurator.

Letterbox and ease of use

Letterbox 370 × 110 × 385 mm: includes a rain run-off edge for optimum protection against water, a continuous rubber lip for quiet posting, a sturdy nameplate with replaceable insert and a very robust lock. The height of the letter slot and the narrowing of the chute help protect your post against unauthorised removal.

Equipment

BASIC plastic nameplate, type 2: nameplate made from crystal-clear polycarbonate. The insert can be replaced from the front.

Features of this letterbox system

- Product range: BASIC Horizontal
- Mounting: column
- Finish: choice of RAL colour
- Overall dimensions: W 383 × H 1472 × D 430 mm
- 5 letterboxes, 1 function box, 1 accessory box
- Box finish: choice of RAL colour
- Fixing method: screw-fixed posts
- Base material: V2A 1.4301 stainless steel. Finish: powder coating or brushed stainless steel

Important information:

Briefkasten Manufaktur Lippe GmbH
Werler Straße 60

Protection against water: a sheltered location, ideally under a canopy, helps protect your post. Mail should be inserted fully and the letter flap should be closed.

Installation: the selected system requires a suitable load-bearing base. Please follow the installation instructions and take the configured fixing method into account.
